The Music of Peter Maxwell Davies Nicholas Jones, Richard McGregor, 2020 Peter Maxwell

Davies 1934-2016 was one of the leading international composers of the post war period as well as one of the most productive. This book provides a global view of his music integrating a number of resonant themes in the composer's work while covering a representative cross section of his vast output. His work list encompasses nearly 550 compositions in every established genre. Each chapter focuses on specific major works and offers general discussion of other selected works connected to the main themes. These themes include compositional technique and process, genre, form, and architecture, tonality, and texture, allusion, quotation, and musical critique, and place and landscape. Throughout the book contends that Davies's works are not created in a vacuum but are intimately connected to and are a reflection of the past. This deep engagement occurs on a number of levels, fluctuating and interacting with the composer's own predominantly modernist idiom and evoking a chain of historical resonances. Making sustained reference to Davies's own words, articles, and programme notes, as well as privileged access to primary source material from his estate, the book illuminates the composer's practices and approaches while shaping a discourse around his music.

BWI **Subtle Energies in Therapy, Spirituality, Arts, and Politics**, 2025-12-04. Few ideas have captured the imagination of contemporary culture as powerfully as that of subtle energies. The belief in subtle energies has shaped alternative medicine and mind-body practices on a global scale. It also had a profound, although little recognized, impact on music and visual arts, debates on gender and race, as well as political and ecological movements. This groundbreaking volume uncovers the historical roots of the concept of subtle energies and explores its many trajectories.

Awakening the Planetary Mind Barbara Hand Clow, 2011-09-21. Completing our conscious evolution by releasing our collective fear of catastrophes. Explains how we are on the cusp of an era of incredible creative growth. Shows how we are about to overcome the collective fear caused by ancient catastrophes as we awaken to the memories of our lost prehistory. Examines legendary cataclysms and scientific evidence of a highly advanced global culture that disappeared 11,500 years ago. In this completely revised and expanded edition of *Catastrophobia*, bestselling author Barbara Hand Clow explains how we are on the cusp of an age of incredible creative growth made possible by restoring our lost prehistory. Examining legendary cataclysms such as the fall of Atlantis and the biblical Flood, and the mounting geological and archaeological evidence that many of these mythic catastrophes were actual events, she reveals the existence of a highly advanced global maritime culture that disappeared amid great earth changes and rising seas 14,000 to 11,500 years ago, nearly causing our species' extinction and leaving humanity's collective psyche deeply scarred. Tracing humanity's reemergence after these prehistoric catastrophes, Clow explains how these events in the deep

past influence our consciousness today Guided by Carl Johan Calleman s analysis of the Mayan Calendar she reveals that as the Earth s 26 000 year precessional cycle shifts our evolution is accelerating to prepare us for a new age of harmony and peace She explains how we are beginning a collective healing as ancient memories of prehistory awaken in our minds and release our unprocessed fear Passed from generation to generation this fear has been responsible for our constant expectations of apocalypse She shows that by remembering and moving beyond the trauma of our long lost past we bring the era of cataclysms to an end and cross the threshold into a time of extraordinary creative activity
