instruction manual *The Respectful Parent: A Manual for Moms and Dads* may be the closest book to that much needed manual. This book is for parents whose normal children are driving them up the wall and parents who want to improve their parenting skills while things are still going well. *The Respectful Parent* is written in a personal style by an author who has over 55 years of clinical experience working with families and individuals of all ages. Dr. Deutch believes that respect between parent and child along with a toolbox of great common sense techniques is the key to having a cooperative, happy and productive family. Spanking, yelling and threats may work on your child in the immediate situation but scientific research shows that in the long term they have many negative and sometimes catastrophic side effects. *The Respectful Parent* teaches how to use positive and democratic ways to nurture children. These ideas are based on the commonsensical philosophy of Doctors Alfred Adler and Rudolph Dreikurs. Learn to use the power of encouragement, the family council, individual special time, natural and logical consequences and simple communication techniques. Become your child's consultant rather than boss. Raise your child's self-esteem, courage, mental health and even his or her IQ.
