Vice Squad:

Vice Squad Robert Hunter Williams, 1973 From Vice to Nice René Esparza, 2025-09-17 Shifting the focus of AIDS history away from the coasts to the Twin Cities of Minneapolis and St Paul this impressive book uncovers how homonormative political strategies weaponized the AIDS crisis to fuel gentrification During the height of the epidemic white gay activists and politicians pursued social acceptance by assimilating to Midwestern cultural values This approach René Esparza argues diluted radical facets of LGBTQ activism rejected a politics of sexual dissidence severed ties with communities of color and ushered in the destruction of vibrant queer spaces Drawing from archival research oral histories and urban studies from the 1970s through the 1990s Esparza illustrates how the onset of the AIDS epidemic provided a pretext for further criminalization of perceived sexual deviance targeting sex workers promiscuous gay men and transgender women More than the criminalization of people and behaviors this time period also saw increased targeting of urban venues such as bathhouses adult bookstores and public parks where casual anonymous encounters occurred Cleansing the city of land uses that undermined gentrification became a protective measure against AIDS and the most marginalized bore the brunt of the ensuing surveillance and displacement From Vice to Nice illuminates how despite purporting seemingly progressive values LGBTQ Midwestern politics of conformity leveraged the AIDS crisis to further instigate racial and sexual exclusion and fundamentally alter the urban landscape Investigation of Crime and Law Enforcement in the District of Columbia United States. Parliament, 1967 Includes various departmental reports and reports of commissions Cf Gregory Serial publications of foreign governments 1815 1931 Big-city Police Robert M. Fogelson, 1977 This book looks at the impact of two major police reform movements on the social mobility of ethnic groups the distribution of political power the struggle for status in urban America and police professionalism are explored Social and political pressures which led to waves of police reform in 1890 to 1930 and again about 1940 to 1970 not only changed the average city police department into a centralized trained group of professionals but also changed the character of the American city

Before 1890 the police department was an adjunct of the political machine Ward bosses hired and fired therefore police loyalty was to the neighborhood Most patrol jobs were political rewards and went to immigrants or sons of immigrants from the immediate area Laws were enforced on an ethnic basis The cost of this community control was widespread corruption and abuse The first wave of reform began about 1890 when middle class clergymen business leaders and social reformers began a move to centralize the police and remove political appointments A military model was adopted and the phrase war on crime coined By 1930 most major police departments had adopted the centralized beat approach and a civil service system was beginning A second wave of reform came from within police departments themselves Greater training greater professionalism and greater status for police were the cornerstones of this wave The emergence of police unions which became major political power blocs increased the force of the movement A third reform started tentatively in the late 1960s This movement calls for return of police accountability to the neighborhoods To date it has made little headway because police commissioners have incorporated its protests into the existing police department structure through community relations boards community grievance procedures and other institutionalized devices *The Police Journal* ,1922

Crime, Crusades and Corruption Michael Woodiwiss,1988-08-12 Drawing on a wide range of sources the author examines the attempts by law enforcement agencies to prevent the violation of prohibition laws on alcohol drugs gambling and prostitution throughout the 20th century Although legislation was intended to end all behavior that a Protestant culture defined as sinful and non productive the laws actually fostered and sustained a level of crime and corruption far in excess of that to be found in more tolerant societies and were at best selectively enforced The author argues that the authorities presented the concept of organized crime in the shape of the Mafia to disguise the fact that the existing laws were virtually impossible to enforce Also examined is the extensive corruption at all levels of officialdom Contents Foreword by Hugh Brogan Introduction Part I3 Losing the war against liquor 1920 1934 1 Making crime pay 2 The dangers of enforcement 3 The fall of Al Capone 4 The end of one prohibition Part II3 Crusades and corruption in the cities 1930 1950 5 New York gangbusters 6 Chicago corrupt and content 7 Los Angeles city of fallen angels 8 Post war perfidy Part III3 Distracting from failure 1945 9 Blaming aliens 10 The Kefauver Crime Show 11 Prolonging the crusade Part IV3 The final phase drugs crime and politics 1960 12 Expansion 13 Perpetuation Epilogue Notes Index *West's Pacific Digest, Beginning 101 P.* ,1962
