Constructing Victims' Rights Paul Elliott Rock, 2004 Despite plentiful discussion at various times the personal victim has traditionally been afforded almost no formal role in the criminal justice process Victims rights have always met with stout opposition from both judges and the Lord Chancellor who have guarded defendants rights the maintenance of professionally controlled and emotionally unencumbered trials and the doctrine that crime is at heart an offence against society State or Sovereign Constructing Victims Rights provides a detailed account of how this opposition was overcome and of the progressive redefinition of victims of crime culminating in 2003 in proposals for awarding near rights to victims of crime Based upon extensive observation primary papers and interviews Paul Rock examines changes in the forms of criminal justice policy making within the New Labour Government observing how they shaped political representations and activities centred on victims of crime He reveals how the issues of new managerialism restorative justice human rights race and racism after the death of Stephen Lawrence and the treatment of rape victims after the trial of Ralston Edwards came to form a critical mass that required ordering and reconstruction Constructing Victims Rights unpicks and explains the resultant battery of proposals and the deft policy manoeuvre contained in the Domestic Violence Crime and Victims Bill of 2003 This the solution to a seemingly intractable problem was a work of finesse proposing on the one hand the imposition of statutory duties on criminal justice agencies and the granting of access to an Ombudsman and on the other a National Victims Advisory Panel that would afford victims a symbolic voice and a symbolic champion a Commissioner for Victims and Witnesses

Law in Civil Society Richard Dien Winfield, 1995 *Law in Civil Society* advances a new and comprehensive theory of how legal institutions should be reformed to uphold the property family and economic rights of individuals in civil society In so doing it offers a powerful challenge to the dominant legal theories and practices espoused by liberalism positivism natural law and critical legal thought Winfield argues against the prevailing assumptions of legal philosophers who dogmatically embrace formal or historical conceptions of law True law he contends must be constructed within the context of the different spheres of rights and ultimately can only exist within a civil society committed to self determination and community Working from these fundamental premises he analyzes in detail a rich array of important legal issues fair access to legal representation the rationale for jury trials appropriate distinctions between civil and criminal legal procedures the controversies pitting common law versus codification and adversarial versus inquisitorial systems of trial and the relationship between civil society and the state Much inspired by Hegel's *Philosophy of Right* Winfield's study offers the most convincing critique yet of that renowned philosopher's work and in the process provides a more complete and coherent conception of law than Hegel himself articulated Provocative and highly instructive the book should attract scholars teachers and students in legal and political philosophy and anyone else with an abiding interest in the foundations of Western law
