Bitcoin Supercycle Michael Terpin,2024-11-19 Time the price cycles of bitcoin and become rich Bitcoin has been the best performing asset class of all time better than gold silver real estate and the stock market Its value has risen from one tenth of a cent in 2009 to a new high of over 70 000 But misconceptions about its reliability have prevented most people from creating life changing wealth Michael Terpin the founder of BitAngels whom CNBC calls the Godfather of Crypto is changing that The Bitcoin Supercycle explains his Four Seasons of Bitcoin model which shows how the price of bitcoin moves in reliable cycles similar to those of real estate and stock markets and gives you the numbers evidence charts and strategies to take advantage As the Bitcoin Spring starts in April 2024 and the fourth halving reduces the supply of bitcoin and crypto ETFs hit the market the coming seasons have the potential to create a new class of millionaires and billionaires that rivals the wealth creation of the internet bubble Learn how to become one with The Bitcoin Supercycle **Beyond Traditional**

Probabilistic Methods in Economics Vladik Kreinovich,Nguyen Ngoc Thach,Nguyen Duc Trung,Dang Van

Thanh,2018-11-24 This book presents recent research on probabilistic methods in economics from machine learning to statistical analysis Economics is a very important and at the same a very difficult discipline It is not easy to predict how an economy will evolve or to identify the measures needed to make an economy prosper One of the main reasons for this is the high level of uncertainty different difficult to predict events can influence the future economic behavior To make good predictions and reasonable recommendations this uncertainty has to be taken into account In the past most related research results were based on using traditional techniques from probability and statistics such as p value based hypothesis testing These techniques led to numerous successful applications but in the last decades several examples have emerged showing that these techniques often lead to unreliable and inaccurate predictions It is therefore necessary to come up with new techniques for processing the corresponding uncertainty that go beyond the traditional probabilistic techniques This book focuses on such techniques their economic applications and the remaining challenges presenting both related theoretical developments and their practical applications **Crypto Currency** I.
