Sijuwade, 2024-05-28 This book explores and develops a new philosophical argument for the existence of God from metaphysics It focuses on exploring the pressing questions of God's existence the truth of theistic belief and its relevance in modern philosophy In doing so it bridges the discussions and debates in the field of contemporary metaphysics with that of analytic philosophy of religion At its core metaphysics is dedicated to unveiling the fundamental structure of reality playing a critical role in any intellectual endeavour in the quest for truth However a noticeable gap has persisted between today's metaphysical conversations and the debates in analytic philosophy of religion especially regarding the topic of God's existence In this book the author embarks on a rigorous exploration presenting an innovative a posteriori argument for theism rooted in the latest evidence and theories from contemporary metaphysics The first part of the book details the explanatory framework of the analysis which is focused on introducing a new abductive methodology within metaphysics that provides a way for assessing the veracity of theism and the leading fundamental theories in contemporary metaphysics The second part of the book then focuses on demonstrating how the central concepts and theories within contemporary metaphysics such as quantum foundations four dimensionalism formal ontology essentialism grounding powerful causation mereology free will personhood and the reality of suffering are best explained by the existence of God and thus justify theism over that of the competing theories within contemporary metaphysics Theism is thus the best working metaphysical theory and should take a central place in fundamental enquiries within the field of contemporary metaphysics and beyond *Analytic Theism A Philosophical Investigation* is a must read for scholars and advanced students venturing into philosophy of religion and metaphysics Beyond its appeal to those in analytic philosophy of religion and metaphysics this work also resonates with those immersed in contemporary philosophy on a whole and related fields of inquiry serving as a pivotal read for anyone keen on the intersections of philosophy theology and science
