Divorced Dads Sanford L. Braver,Diane O'Connell,1998 Millions of families strive to give their children the best possible upbringing after being split apart by divorce Separated mothers and fathers and in many cases their second spouses struggle to find the right way to piece together parent child relationships in its wake In this revolutionary work psychologist Sanford L Braver who undertook the largest ever federally funded study on issues confronting divorced fathers shows how millions of well intentioned mothers fathers judges lawyers educators and other caregivers have been repeatedly and tragically misled by the prevailing data about divorce and parenthood For years our society has accepted the image of the dead beat dad who shirks childcare payments and other responsibilities Yet Braver proves that this villainous figure like many other myths of the divorced parent simply does not exist in significant numbers Moreover Braver overturns one of the most important pieces of data on divorce in the past quarter century the belief that divorced women suffer a steep decline in their standard of living This widely embraced notion was the result of misread data but was transformed into fact by the media and the courts and accepted by divorced families and their advocates No other book has revealed the deep flaws in today s research on divorce One sided studies of divorced men and women misused census data and poor research have skewed many of the assumptions around which parents and courts have shaped divorce settlements parenting responsibilities and child rearing decisions

Every divorced parent and anyone who loves a divorced parent urgently needs this book to understand the new realities behind divorce and parenting Notes Index **American Book Publishing Record** ,1992 **Seen and Heard** Australia. Law Reform Commission,1997 The Inquiry s terms of reference were concerned with issues surrounding children s participation within the legal process The Inquiry was not concerned with the substance of the laws rights or entitlements of children within these processes except as these relate to the processes themselves The focus of the Inquiry on a broad range of legal processes enabled consideration of children s involvement in these processes from a national perspective This focus permitted a wide and detailed examination of legal processes in different jurisdictions the relationships between these processes and across portfolios and the consequences of children s involvement in one or more of the processes In some areas the legal processes examined were within State and Territory jurisdictions *Hoard's Dairyman* ,1961
