It has also evolved into a variety of subgenres, ranging from hard sf to soft sf, from Utopias to dystopias, with more than a smattering of horror, detective, war, and feminist titles. Stableford covers all these aspects and more, taking a close look at what has become a booming industry with its specialized writers, publishers, and fan magazines. The compendium includes not only sf from the United States and United Kingdom but also France, Russia, and many others. While the chronology charts the genre's dazzling growth and the dictionary section looks at writers, books, themes, and other specifics, the introduction provides exceptional insight into what Science Fiction Literature is all about. **Magill's Guide to Science Fiction and Fantasy Literature: Lest darkness fall**, 1996.
