Them Joe Fitzgibbon, 2001-10-11 Do you ever feel utterly exhausted Perhaps you feel like falling asleep on your feet right now If so you are not alone One in four people complains of feeling tired all the time and finds it hard to maintain a normal lifestyle as a result Doctor I feel tired all the time is the single most common complaint presented by patients to their doctors In studies in the UK and the USA up to twenty per cent of men and thirty per cent of women identified themselves as having the complaint Unfortunately because fatigue is such a common problem and is sometimes caused by psychological factors the complaint may not be taken seriously and the patient seeking help may be too easily dismissed Feeling Tired All the Time has been written for the layperson In it Dr Fitzgibbon explains the common and treatable causes of fatigue Using the most up to date research and information available he aims primarily to help people identify the cause of their tiredness and specifically to help them distinguish between ME Chronic Fatigue Syndrome and other possible causes Dr Fitzgibbon strongly refutes the notion that nothing can be done to help the fatigued Each section in the book provides checklists which help the reader to recognise the conditions that might apply to them together with a sensible and practical approach to treatment The text is generously complemented by real life case histories taken from the author s personal experience A directory of support organisations is also included
