Theology Loves Question

Henry Robert Reynolds

Theology Loves Question:

Kenosis and the Question of Political Theology Saitya Brata Das, 2025-02-23 The book based on the concept of kenosis explores the thought of a political theology as deconstruction of sovereignty It takes up the most difficult question of God's revelation as the very revelation of love It connects the theological inquiry to ecology emphasizing humanity's redemption as intertwined with nature's salvation It also critiques modern metaphysical views that treat nature as mere resource urging a recognition of our essential interconnectedness with all beings By taking Paul's conception of kenosis seriously this book aims to dismantle existing sovereign powers and challenge the notion of human supremacy in global politics It seeks to reintegrate transcendence into contemporary debates on post secularism and religion while addressing the urgent ecological crises we face An interesting read for upper level undergraduates graduate students scholars and other intellectuals interested in philosophy of religion and philosophical theology

Theology Terry J. Tekippe, 1991 This text seeks to introduce a student to Roman Catholic theology in the Vatican II Church of the late 20th century What characterizes the approach is the conviction that theology is not primarily a body of doctrine to be learned but a skill a habit of mind a way that faith thinks things through From this follows the idea that one learns by doing so that the course will attempt to involve the student as soon as possible in the process of theologizing A second similar conviction is that often doing properly precedes reflection

upon activity or methodology While this sometimes implies asking the student to engage in activities of which he does not fully grasp the implication that seems preferable to discussing the theory of procedures the student has yet to experience
