Crisis and the Culture of Fear and Anxiety in Contemporary Europe Carmen Zamorano Llena, Jonas Stier, Billy Gray, 2023-08-01 The accrument of crises over the last two decades with their particular manifestations in the European context has evoked the feeling of living in exceptional times as captured in the recurrent claim that we live in the age of anxiety The main aim of this collection is to analyse from a multidisciplinary perspective the causes and consequences of the current dominance of the discourse of fear anxiety and crisis through the experience of distinct and often interdependent moral panics in twenty first century Europe With its multidisciplinary approach this volume sheds light on the need to view the interrelationship between different crises and their associated affects as crucial in attaining a more nuanced understanding of the aetiology and effects of the current age of anxiety This multidisciplinary scrutiny of the interrelationship of twenty first century fears anxiety and crises signals an

original engagement with these complex phenomena in order to make their emergence and profound effects on contemporary society more comprehensible. The timeliness of the thematic focus and the rigorous in-depth analyses make this collection relevant to students and academics within the fields of sociology, literary and cultural studies, political science and anthropology, as well as to those in European studies and global studies.

[The Hall of Homeless Gods](#) John Michael Greer, 2024-09-24. A cli-fi thriller in a gritty future. Meet Jerry Shimizu. He's a tough two-fisted fixer who works for the boss of Habitat Four, one of five Japanese refugee communities built on abandoned oil platforms off the coast of the United States in a hard-edged dystopian future of technological decline and climate chaos. His beat is Shoreside, the bustling brawling anything-goes temporary port on the beach two miles from the Habitats. He's trying to bust a robbery ring that's preying on Shoreside gambling money when he encounters a mysterious woman with strange mental abilities. Before long he's having to dodge hoods sent after him by Shoreside's crime lord, agents of the US government and spies from its archrival, the European Union. Does all this have anything to do with rumors of a secret supercomputer project in the now abandoned country inland from Shoreside, a project that once left a string of corpses behind it and now might yield a fabulous trove of old world technology? Jerry's going to find out if he can survive long enough.

**Dystopias and Utopias on Earth and Beyond** Douglas A. Vakoch, 2021-04-29. Caught as we are in a grave climate crisis that seems more irreversible with every passing year, our literary portrayals of the future often feature the dystopian collapse of the world as we know it. Science fiction explores how we got here while pointing toward a more hopeful path forward. From an ecofeminist perspective, a core cause of our current ecological catastrophe is the patriarchal domination of nature, playing out in parallel with the oppression of women. As an alternative to dystopian futures that seem increasingly inevitable, ecofeminist science fiction helps us conjure utopias that promote environmental sustainability based on more egalitarian human relationships.

**Dystopias and Utopias on Earth and Beyond: Feminist Ecocriticism of Science Fiction** explores the fictional worlds of such canonical novelists as Margaret Atwood, Octavia Butler, Ursula K. Le Guin, Doris Lessing, and Joan Slonczewski, as well as those of lesser-known science fiction writers, as they collectively probe humanity's greatest existential threats. Contributors from five continents provide compelling analyses of far future dystopias on Earth that are all too easy to imagine becoming reality if humankind's current trajectory continues, as well as provocative insights into science fiction utopias set on idyllic planets orbiting distant stars which offer liberatory alternatives that might someday be actualized in the real world. By examining the links between the destruction of the environment and the domination of women, **Dystopias and Utopias on Earth and Beyond** provides the tools to counteract those intertwined oppressions, helping create a foundation for a truly habitable world.
