## **The Yeti:**

*The Yeti!* Steve Roberts, 2012-08-15 Tales of a mysterious man like creature have drifted down from the Himalayas for hundreds of years Countless mountain climbers and adventure seekers have gone in search of the yeti only to turn up empty handed Yet enough sightings strange footprints and other findings have been claimed to keep the story of the yeti alive Readers will uncover these finding and make their own conclusions about the existence of the yeti **The Yeti** Odette Tchernine, 1970 **Dr Robert Maldron and the Yeti** Hermione Chase, 2014-04-26 Its 1955 and the most recent expedition to the Himalayas has failed Its purpose was to locate the whereabouts of the mythical Soma plant The Soma plant is supposedly unique to the Himalayan Mountains and according to Nepalese legend it has restorative powers to cure and heal and some say to prolong life Its exact location was thought to have been found 10 years earlier with the discovery of a photograph of a strange plant that resembled a 4 leaf clover It was amongst equipment salvaged from a previous expedition where all participants perished This had fueled further exploration financed by large pharmaceutical companies keen to find the plant and synthesis medicines that might make millions of dollars for their shareholders The latest attempt present day saw the expedition team killed under mysterious circumstances with the exception of one Sherpa guide The survivor escapes with two broken legs having jumped from a cliff edge while his compatriots were left back at base camp mutilated The Sherpa s account spoke of an attack rather than an avalanche An attack by a mountain man as the locals term the creature Western culture call it a Yeti or an Abominable Snowman The Dakin Foundation a leading pharmaceutical research company who provided funding for the expedition is undeterred and it seeks help from New York University School of Medicines top researcher Eleanor Steed to carry out a second expedition to find the Soma plant Steed is terminally ill with months to live and accepts the commission keeping her condition a secret She does not necessarily believe in the plant s existence or its properties it is just an opportunity to be involved in one last piece of fieldwork in a place she had never visited Her condition is managed through medication Elsewhere in the world a number of countries are testing bombs in the pacific and Australian outback These man made effects on the earth s environment create a number of breaches between the earth plain and that of the Continuum As was the case several thousand years earlier a breach opened briefly amongst the Himalayan Mountains The Continuum Council acts swiftly to close the doorway but not before a creature called a Yetiad steps through Unlike the family of Yetiad that did the same thousands of years before this single Yetiad comes through unprepared Instead of a wise knowledgeable creature living in harmony with Tibetans it is an angry murderous creature whose sole objective is to find the Soma plant now it has tested blood Blood and the sap of the Soma plant combined prolong the life of the Yetiad and has the capability of doing the same for humans The Continuum Council contacts Project Earth Director Max Von Konsetin telepathically seeking his help to stop the rampant Yetiad Max in turn asks for the help of part human part vampire Robert Maldron Maldron is seconded into Steed s team While Steed searches for the Soma plant Maldron must deal with the Yeti the
