Theological Educator:

Theological Education and Christian Scholarship for Human Flourishing Celucien L. Joseph, 2022-09-14 This book explores the interconnection of theological education and Christian scholarship cultural and theological hermeneutics pedagogy and community knowledge democracy and citizenship Yet the three major disciplines or discourses covered in this work include multicultural education theology and hermeneutics through the lens of human flourishing and the concept of the good life From this angle this project is written from three different methods and approaches that intersect with each other a theology of contextualization a hermeneutics of interculturality and a pedagogy of cultural literacy and transformative community knowledge The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights civic engagement and the political life inclusion and diversity and pluralism and difference in our multicultural society The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world in the Aristotelian sense and in the Socratic idea of local and world citizenship Finally this text offers an alternative vision to contemporary theological education to deconstruct the white male and Eurocentric narratives of theological education and Christian scholarship

Trust in Theological Education Eve Parker, 2022-05-31 As those coming forward for ministerial training change and diversify is the way we learn theology changing too Integrity within our training institutions has often been assumed and granted to white male or those from the middle or upper classes This has come at the expense of the faith truths beliefs and perspectives offered by women people of colour indigenous theologies and the working classes whose testimonies have often been ignored or marginalised by the dominant discourses that have been deemed more trustworthy as a consequence of the way in which imperialism has enabled knowledge and religion to be constructed and controlled Yet theological education also has a potential to challenge these norms It holds the potential to challenge oppressive cultures theologies and pedagogies Relying on feminist black indecent and postcolonial theologies Trust in Theological Education will deconstruct dominant models of theological education by incorporating ethnographic research alongside educational theory liberation theology and radical exegesis It will demonstrate theological education's potential to change and be transformed in order to enable those who have been excluded and marginalised to become speaking subjects and agents for systemic change
