Ferguson, 2024-03-11 Following a series of economic and political changes in the late 1980s art design schools and performing arts academies were incorporated into the university system To justify their teachings as academic research they developed the idea of practice led research Practice led research recognizes two or more languages that is the validity of both explicit propositional knowledge and embodied tacit knowledge allowing for the researcher s corresponding output expressed through both the written word and relevant practice Christians often find themselves living a life of two languages a set of intellectual beliefs and the practice of being a Christian This book develops this methodology and translates it for use in theological research Most importantly it clearly develops key elements of this methodology using a comprehensive model and detailed definitions This is a book which not only presents a fully articulated and flexible model of practice led research but also presents Christian researchers with an approach they could incorporate into their theological work *Practice, Practice Theory and Theology* Kirstine Helboe Johansen, Ulla Schmidt, 2022-05-09 How might practice theories and

engagement with practice contribute to and advance theological study of religion and religious life and practices This volume explores and discusses how theological engagement with practice theoretically as well as empirically might profit from theories of practice developed in disciplines such as philosophy sociology education and organisational studies during the recent decades but so far scarcely employed within theology In part I the volume unfolds key components of practice theory especially as they have more recently been developed within sociological practice theories reflect on their significance and potential with regard to theology In part II these perspectives are employed in the study of concrete religious practices established as well as experimental religious practices and collective as well as individual ones By unfolding connections between theology and practice theories and reflecting on practice theories analytical and theoretical potential for theological study of religion the book will be of interest for any scholar in the study of contemporary religion and practical theology

The Practice of the Presence of God Martin Laird, Sheelah Treflé Hidden, 2016-11-29 Exploring the unity of the practice of prayer and the practice of theology this book draws together insights from world class theologians including Rowan Williams Andrew Louth Frances Young Margaret R Miles Sebastian Brock and Nichola Sakharov Offering glimpses of the prayer life and witness that undergirds theological endeavour some authors approach the topic in a deeply personal way while others express the unity of prayer and the theologian in a traditionally scholarly manner No matter what the denomination of the Christian theologian Greek or Russian Orthodox Roman Catholic Anglican Methodist authors demonstrate that the discipline of theology cannot properly be practiced apart from the prayer life of the theologian The prayer of the theologian shapes her or his approach to theology Whether it be preaching teaching writing or research the deep soundings of prayer inform and embrace all

Worship, Ritual, and Pentecostal Spirituality-as-Theology Martina Björkander, 2024-02-06 Vibrant worship music is part of the Charismatic liturgy all around the world and has become in many ways the hallmark of Pentecostal Charismatic Christianity Despite its centrality scholarly interest in the theological and ritual significance of worship for

pentecostal spirituality has been sparse not least in Africa Combining rich theoretical and theological insight with an in depth case study of worship practices in Nairobi Kenya this interdisciplinary study offers a significant contribution to knowledge and is bound to influence scholarly discussions for years to come The book is a must read for anyone interested in Pentecostal worship ritual and spirituality *Forming Ministers or Training Leaders?* Anthony Clarke,2021-06-15 *Forming Ministers or Training Leaders* is a unique book because it is based on a significant piece of empirical research Anthony Clarke explores the way that the practice among theological colleges in the UK has been changing and develops the concept of the pastoral imagination to express what a theological college is aiming to do with its students The book then offers an analysis of the pastoral imagination that is in fact at work in a selection of Baptist colleges and other theological institutions in the UK Alongside this Clarke offers a coherent and robust theological account of the work of a theological college through engaging with recent trinitarian theology and argues that this is best understood as a process of formation which embraces other ideas of training and education **Christian Theology in Practice** Bonnie J. Miller-McLemore,2012-02-02 For the past fifty years scholars in both pastoral and practical theology have attempted to recapture human religious experience and practice as essential sites for theological engagement redefining in the process what theology is how it is done and who does it In this book Bonnie J Miller McLemore shows how this trend in scholarship has led to an expanded subject matter alternative ways of knowing and richer terms for analysis in doing Christian theology Tracing more than two decades of her own search for a more inclusive discipline one that truly grapples with theology in the midst of life *Christian Theology in Practice* shows not only where Miller McLemore herself has traveled in the field but also how pastoral and practical theology has developed during this time Looking forward Miller McLemore calls on the academy and Christian congregations to disrupt conventional theological boundaries and to acknowledge the multiplicity of shapes and places in which the wisdom of God appears *Theological Reflection: Methods, 2nd Edition* Elaine Graham,Heather Walton,2018-02-28 *Theological Reflections Methods* offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies *Theology and the Arts* Ruth Illman,W. Alan Smith,2013-06-07 This book brings the emerging fields of practical theology and theology of the arts into a dialogue beyond the bias of modern systematic and constructive theology The authors draw upon postmodern post secular feminist liberation and dialogical dialectical philosophy and theology and their critiques of the narrow modern emphases on reason and the scientific method as the

model for all knowledge Such a practical theology of the arts focuses the work of theology on the actual practices that engage the arts in their various forms as the means of interpreting and understanding the nature of the communities and their members as well as the mechanisms through which these communities engage in transformative work to make persons and neighborhoods whole This book presents its theological claims through the careful analysis of several stories of communities around the world that have engaged in transformational practices through a specific art form investigating communities from Europe the Middle East South America and the U S The case studies explored include Jewish Christian Muslim Druze indigenous and sometimes agnostic subjects involved in visual art music dance theatre documentary film and literature Theology and the Arts demonstrates that the challenges of a postmodern and post secular context require a fundamental rethinking of theology that focuses on discrete practices of faithful communities rather than one dimensional theories about religion

Church for Every Context Michael Moynagh, 2014-04-15 The first comprehensive textbook on the theology and methodology of Fresh Expressions one of the most important developments within the contemporary church

Poetry, Practical Theology and Reflective Practice Mark Pryce, 2019-03-13 This groundbreaking study offers an innovative critical analysis of poetry as a resource for reflective practice in the context of continuing professional development In the contemporary drive in all professions for greater rigour in education training and development little attention is paid to the inner shape of learning and meaning making for individuals and groups especially ways in which individuals are formed for the task of their work Building on empirical research into the author s professional practice the book takes the use of poetry in clergy continuing ministerial development as a case study to examine the value of poetry in professional learning Setting out the advantages and limitations of poetry as a stimulant for imaginative critical reflexivity and formation within professional reflective practice the study develops a practical model for group reflection around poetry distilling pedagogical approaches for working effectively with poetry in continuing professional development Drawing together a number of strands of thinking about poetry Practical Theology and reflective practice into a tightly argued study the book is an important methodological resource It makes available a range of primary and secondary sources offering researchers into professional practice a model of ethnographic research in Practical Theology which embraces innovative methods for reflexivity and theological reflection including the value of auto ethnographic poetry

Practical

Theology in Church and Society Joseph E. Bush, 2016-07-20 The church exists in the world and our ministry is inextricably social in nature Practical theology takes this seriously and asks us to reflect on our practice of ministry in both church and society This book attends to our practice as individuals in ministry to our corporate practice as congregations in ministry and to our practice as Christians within the wider social and natural world Practical Theology in Church and Society brings into sharper focus two perspectives on practical theology One is the view through the wide angle lens of justice oriented action which hopes for liberation This view encompasses a broad vista of social forces for justice and injustice when evaluating local movements and local ministries The other perspective takes the narrower focus of the action reflection model as it is used to zoom in on individual actions and particular practices of ministry such as pastoral care The purpose of the book is to integrate these two perspectives on practical theology It explicates a cyclical method for doing theology that has corollaries within the disciplines of practical theology liberation theology missiology congregation studies and ministerial leadership The volume provides resources for developing more socially and ecologically engaged ministries and it draws implications for ministerial education
