From Self-Care to We-Care Jordan Quaglia, 2025-05-06. Learn to harmonize self care with caring for others through we care, a science based approach designed to enhance personal and social well being, promote healthy boundaries and offer a path of healing and transformation. Too many of us are familiar with the burnout that can come from overextending ourselves for others. Self care is often promoted as the solution to this imbalance but there are growing concerns that an overemphasis on self care is exacerbating interpersonal challenges, fraying the fabric of our communities and diminishing our responsiveness to broader social issues. In a world where time can feel increasingly scarce, we find ourselves in a dilemma: should we prioritize ourselves or others? Yet as psychologist and compassion scientist Jordan Quaglia demonstrates, this choice is based on a false dichotomy. The emerging science and practice of we care reframes the very concept of care as a social force that includes both self and other. Through personal stories, guided inquiries, practical social exercises and insights from cutting edge neuroscience, Quaglia offers a framework and toolset designed to help you find a more balanced way to express your innate sense of compassion. This holistic approach sparks transformative changes across your health, relationships and work, uplifting yourself and others while supporting a stronger, more connected society for us all.
