Steps Of Understanding Key Events In Jesus Life:

The Omnipresence of Jesus Christ Theodore Zachariades, 2015-06-01 This important book reassesses the classic Chalcedonian view of Jesus one person two natures It carefully rejects all forms of kenotic Christology and affirms that Jesus possessed and used all the divine attributes in particular that of omnipresence arguing that evangelical scholars have abandoned this important truth This has ramifications for our view of the Holy Spirit and of Christ's presence with his people It challenges us to read the Scriptures again and to live in the presence of Jesus Publisher Commendation In this important study of orthodox Christology Dr Zachariades develops an aspect of it that has generally been neglected How should we understand the universal presence of the risen ascended and glorified Christ Starting with the controversies of the early church he takes us through the questions involved in the discussion and points us to a deeper understanding of how Christ is both God and man at the same time Gerald L Bray Research Professor of Divinity History and Doctrine Beeson Divinity School USA

The Knowledge of Things Hoped For Robert W. Jenson, 2020-06-09 What sort of meaning for today's world emerges in theological discourse We sit in the pew the author writes and ask But what does the preacher mean We climb the pulpit with despair of the words we must utter a despair present for a generation at least but now become explicit The suspicion that talk about God makes less and less sense is set both by the dominance of the sciences as models of certainty and by our increasing acceptance of historical relativism The order of Dr Jenson's book follows the order of his search for verifiability his conclusions acknowledge the reality of promise the centrality of hope for Christian faith and discourse that is the common motif of many different contemporary theological programs To overcome a deficiency of previous discussions Dr Jenson starts with an investigation of how classical theology through key proponents has understood itself An account of Origen centers on the language of images one of Thomas on the notion of analogy Seeking both continuity with and freedom from these traditional interpretations the author then enters the contemporary discussion Over the challenge of verifiability he engages the English and American analysts over the challenge of historicism he engages the European hermeneuticists in quest of a more viable and comprehensive answer than either has been able to offer *The Life and Times of Jesus the Messiah* Alfred Edersheim, 1899 **The Pedagogy of God's Image** Robert Masson, 1982 E Conn The significance for theology of the doctor of the church Keith J Egan The tree of life in Hindu and Christian theology John Borelli Cosmos and conscience in the history of religious imagination Robert Kress *The Andover Case*, 1887

Rethinking the Bible Thomas Jay Oord, Richard Thompson, 2018-04-25 Rethinking the Bible explains Scripture in ways that make sense and deepen Christian faith Its essays ask and answer central questions about Scripture such as What is the primary function of the Bible Can the Bible be trusted if it has errors What does divine inspiration mean if humans wrote the Bible How should preachers use the Bible today Does the Bible mean now what it meant when written How has archaeology

changed the way we interpret the Bible Should the Dead Sea Scrolls affect our view of the Bible What authority does the Bible have matters of science Is the Bible a container of truth statements or tool for formation How should we handle contradictions we find in the Bible Should postmodernism influence how we read the Bible The standard answers to these questions no longer make sense Many people today seek a more adequate way to understand what the Bible is and does Those who ask deep questions about Scripture want plausible answers This book offers answers to questions about the Bible that make sense in our time

Explorations in Christology John Anthony Sullivan,1987 The classical Hellenic concept of God as self consistent incapable of internal mutability and passionality is rejected by process theologians on the basis of the immediacy of lived experience and the biblical witness All actual reality is relational Process theologians attempt to arrive at modern Christological statements which would do justice to the central intention of traditional creedal affirmations If Christ can be considered the image of creative transformation in the context of contemporary theological pluralism even Paul Tillich's category of existentialist ontology is adaptable The cosmological image of Christ is compatible with the ontological symbol of New Being in Jesus as the Christ The consequences for exploratory Christological affirmations to account for God's unique presence in Jesus the Christ are appealing to modernity
