NFT related art and the concept of the artist in a historical perspective Lisa Wolf, 2024-01-17 Bachelor Thesis from the year 2023 in the subject Art History of Art grade 1 7 LMU Munich Kunstgeschichte language English abstract Since 2021 NFTs non fungible token have conquered the public and the art world with headlines found its way into international headlines The sale of Everydays The First 5000 Days has made Beeple the third most valuable living artist behind Jeff Koons and David Hockney displacing Gerhard Richter from the Top 3 Kolja Reichert art critic and curator critically questions in one of his articles the most expensive illustrator and thereby points to a significant problem The crypto market originally part of online trading had until then mainly dealt with sports trading cards fan merchandise and products from the gaming industry With the entry of NFTs into the traditional auction system the collective name NFT art has formed without quality standards entry barriers or criticism Based on this problem this Bachelor thesis deals with the overarching question of what makes an NFT creator an artist and how does this concept of an artist relate to historical concepts of artists To answer these questions case studies of two NFTs will be conducted While their producers have very different artistic backgrounds both NFTs were auctioned at renowned auction houses in 2021

Starting from the overarching question these two examples will be used to examine whether the work can be related to historical concepts of artists to what extent NFT technology has created a new concept of the artist and if there are features outside of NFT technology that connect these two artworks

Adopting the Beat of Phrase: An Psychological Symphony within **Case Studies Blockchain Explained**

In a world taken by screens and the ceaseless chatter of quick transmission, the melodic beauty and mental symphony produced by the written term usually disappear in to the back ground, eclipsed by the constant sound and interruptions that permeate our lives. However, nestled within the pages of **Case Studies Blockchain Explained** a stunning fictional prize full of natural emotions, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that fascinating masterpiece conducts viewers on a psychological journey, skillfully unraveling the concealed tunes and profound influence resonating within each cautiously constructed phrase. Within the depths with this touching review, we shall investigate the book is key harmonies, analyze its enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
