 Book on Spices & Condiments (with Cultivation, Processing & Uses) 2nd Revised Edition** NIIR Board of Consultants
 & Engineers,2006-04-01 The term spices and condiments applies to such natural plant or vegetable products and mixtures
 thereof used in whole or ground form mainly for imparting flavor aroma and piquancy to foods and also for seasoning of
 foods beverages like soups The great mystery and beauty of spices is their use blending and ability to change and enhance
 the character of food Spices and condiments have a special significance in various ways in human life because of its specific
 flavours taste and aroma Spices and condiments play an important role in the national economies of several spice producing
 importing and exporting countries India is one of the major spice producing and exporting countries Most of the spices and
 herbs have active principles in them and development of these through pharmacological and preclinical and clinical
 screening would mean expansion of considerable opportunities for successful commercialization of the product Spices can be
 used to create these health promoting products The active components in the spices phthalides polyacetylenes phenolic acids
 flavanoids coumarines triterpenoids serols and monoterpenes are powerful tools for promoting physical and emotional
 wellness India has been playing a major role in producing and exporting various perennial spices like cardamoms pepper
 vanilla clove nutmeg and cinnamon over a wide range of suitable climatic situations To produce good quality spice products
 attention is required not only during cultivation but also at the time of harvesting processing and storing Not as large as in
 the days when next to gold spices were considered most worth the risk of life and money The trade is still extensive and the
 oriental demand is as large as ever Some of the fundamentals of the book are definition of spices and condiments
