Teach Me to Do It Myself Maja Pitamic, 2021-02-21 This is a fun filled practical activity book for children between the ages of three and five. The activities are based on the Montessori teaching philosophy and will give your child the best possible start in achieving essential skills and developing a greater understanding of the world around him. You act as a guide taking your child through the activities to build an essential repertoire of life skills that range from dressing to basic science. No specialized knowledge is required. The activities go step by step and include suggestions for future activities. Only simple preparation is required with materials that are available in most homes. Not only will your child develop his coordination and grow in confidence and self-esteem, you will gain greater insight into your child's development. Best of all, you will be teaching your child to do things for himself and setting him on the road to independence. *The Montessori Toddler Activity Book* Beth Wood, 2021-06-08 Inspire confidence, independence, and joyful discovery with at-home Montessori activities for toddlers. Montessori Reading Workbook Julia Palmarola, 2019-08-30 A learn-to-read workbook by the author of the Practical Guide to the Montessori Method at Home. This Montessori practice book includes work with letters and a clear and straightforward system to learn phonics. Children will learn the shape and sound of each letter just like they would with Montessori sandpaper letters. The book includes 26 alphabet worksheets meant for children to trace letters with their fingers and learn to recognize beginning sounds. Montessori pink series activities: children will learn phonetic reading with three-part cards and missing letter activities. We will introduce easy-to-read CVC words with flash cards and games. Montessori blue series activities: the book also includes three-part cards and activities to learn digraphs present in CCVC and CVCC words and a list of words for children to practice. Montessori sight words in flash cards. A paper movable alphabet designed for children to start building their own words. Sentence building: we have also included Montessori reading games and cut-out words to start writing and reading sentences quickly. This is a learn-to-read book for kids 3-5 and 5-7. Each age group will use the book in a slightly

different way The first group will be able to work with the help of an adult while the older group can start the Montessori reading series mostly on their own as they will be able to cut paste and color most of the reading activities by themselves We have included many Montessori reading tools in this book which you will be able to cut out and laminate if you want to create your own Montessori reading materials on a budget This reading workbook contains dozens of engaging black and white illustrations to color cut and paste and it is ideal for families who are using Montessori at home as a reinforcement of school work or as a great homeschooling reading tool and it can even be used as a Montessori reading instruction tool in the classroom as it allows its use by more than one child
