Viewpoints Poets In Conversation With John Haffenden:

Viewpoints John Haffenden, 1981-01 **Ted Hughes, Class and Violence** Paul Bentley, 2014-04-24 Ted Hughes is widely regarded as a major figure in twentieth century poetry but the impact of Hughes's class background on his work has received little attention This is the first full length study to take the measure of the importance of class in Hughes It presents a radically new version of Hughes that challenges the image of Hughes as primarily a nature poet as well as the image of the Tory Laureate The controversy over natural violence in Hughes's early poems Hughes's relationship with Seamus Heaney the Laureateship and Hughes's revisiting of his relationship with Sylvia Plath in *Birthday Letters* 1998 are reconsidered in terms of Hughes's class background Drawing on the thinking of cultural theorists such as Slavoj Žižek Terry Eagleton and Julia Kristeva the book presents new political readings of familiar Hughes poems alongside consideration of posthumously collected poems and letters to reveal a surprising picture of a profoundly class conscious poet **Sympathetic Ink** Shane Alcobia-Murphy, 2006-01-01 Northern Irish poets have been notably reticent when addressing political issues in their work In *Sympathetic Ink* Shane Alcobia Murphy traces that tendency through the works of Seamus Heaney Paul Muldoon and Medbh McGuckian Using collections of the poets papers made only recently available Alcobia Murphy focuses on the oblique subtle strategies they apply to critique contemporary political issues He employs the concept of sympathetic ink or invisible ink arguing that rather than avoiding politics these poets have via complex intertextual references and resonances woven them deeply into the formal construction of their works Acute and learned *Sympathetic Ink* will serve as a perfect introduction to these crucial figures of Irish poetry The Poetry of Thom Gunn Stefania Michelucci, 2008-12-24 Thom Gunn served as a mouthpiece for his time illustrating the social cultural and historical transformations that have characterized western civilization from World War II until today Starting with theoretical premises drawn from philosophy anthropology and sociology this work examines Thom Gunn's entire poetic career In Gunn's early poetry the author argues the predominant theme is the desire for freedom from the painful prison of the intellect and from the masks that the individual feels compelled to wear even in his sexual relationships In Gunn's later poetry the author notes a gradual opening to human relationships and to Nature which is also Gunn's vindication and reevaluation of his own nature and the liberation of his long repressed and hidden homosexuality The Poetry of Resistance Sidney Burris, 1990 For the last twenty years Mason's work first published in 1966 has been the standard edition of the poems and letters of this young black poet of 18th century Boston This new edition has been extensively revised in light of new scholarship and has been expanded to include all of Wheatley's 55 poems and 22 letters the significant variants of poems and the four Proposals for publication of her works all of them annotated Paper edition unseen 12 95 Burris English U of Arkansas examines Heaney's pastoral poems a form historically political demonstrating how the poet has modernized and extended the form Burris argues that Heaney's achievements have satisfied the aesthetic demands of art as well as responsibly addressing the turmoil in his society Annotation copyrighted by
