Understanding The Mafia:

Understanding the mafia Joe Farrell,2024-07-30 An anthology of writings in Italian which examine the origins nature and culture of the Sicilian mafia Separate chapters are devoted to the culture from which the mafia emerged the economic and business activities in which it is now engaged its relations with politics and politicians as well as its structure and historical evolution There are portraits of prominent mafiosi as well as of the people and organizations that have struggled against mafia crime The individual pieces come from a diverse range of sources including newspapers historical and sociological works There is an introduction in English as well as a full vocabulary and a glossary of terms associated with the mafia

Understanding Mafia Networks Roberto Musotto,2022-07-15 The Sicilian Mafia is the most famous criminal organisation in the world While its own code of honour rustic chivalry and violence methods have been adopted by other illicit groups very little is known about how the Mafia Cosa Nostra is actually organised and embedded in its territory Who runs the day to day operations What does it take for a Mafioso to raise the ranks and become a boss How can the organisation protect itself and re group after arrests This book explores for the first time the structure of this criminal organisation through the lens of spatial and social network analysis and answers these questions This is done by looking at the relationships of 176 members of the organisation that have been recently involved in building the Cupola the highest ruling and judicial body in the organisation Starting from the arrest warrant that uncovered this criminal restructuring a method and several alternatives are offered explained and commented on how to analyse and visualise criminal networks The book confirms the assumption that the Sicilian Mafia is a criminal organisation that is deeply rooted in its territory Mafiosi live work and interact only in the remit of their own neighbourhood Bosses are evasive even to their own affiliates and mid level members are in charge of keeping the whole network operational This book is particularly useful to students researchers and law enforcement agencies that look at new ways to understand and disrupt the operations and structure of criminal organisations around the world

University in the fight against mafias: Research, teaching and training Stefano D'Alfonso,Gaetano Manfredi,2022-11-02 The commitment of Italian universities to education in the field of legality and to research on the subject of mafias is the main focus of this investigation edited by Stefano D Alfonso and Gaetano Manfredi For the first time data is shown about the overall framework of teaching and research activities dedicated to this topic with twenty nine scholars from different academic disciplines and several universities who come together to reflect on the current situation and on the commitment of universities in the fight against mafias highlighting both strengths and weaknesses of the system The reflections illustrated here bring to light the dynamic nature of the local and cultural context where universities operate as well as the type of interaction that these institutions maintain with the national and local context At the same time it seems clear that great expectations are held at various levels in terms of what universities could do especially with regards to the demand for knowledge about the best ways to fight mafias This research reveals that Italian

universities possess a considerable capital of knowledge which represents a hidden treasure to be valued and used with the aim of promoting widespread awareness of their role in the anti mafia field This book is the result of cooperation between many university professors and researchers the Parliamentary anti mafia Committee the Conference of Italian University Rectors and former minister of University and Research Gaetano Manfredi under the supervision and coordination of the interdisciplinary research laboratory on mafias and corruption of the Department of Social Sciences of the University of Naples Federico II This network of professionals and institutions enabled the construction of a significant database where teaching and research activities carried out by scholars from different universities can be identified across about one hundred academic disciplines

Mafia Expansion Zora L. Hauser, 2025-03-14 *Mafia Expansion* The Ndrangheta in Established Democracies offers an overarching account of mafia expansion grounded in a far reaching analysis of one of the most widely spread yet least understood mafias in the world While few mafia organizations exist today they wield significant global influence having extended their reach into territories including the United States Australia and nearly all European countries Scholars have often associated mafia presence with a state s ability and willingness to govern effectively when faced with social disorganization economic recession and chronic distrust Why then have seemingly stable democracies seen mafia expansion into their territories In response to this question *Mafia Expansion* illuminates how and why mafia organizations have taken root in contexts very different to those in which they originally emerged Drawing on extensive fieldwork and a rich selection of primary sources the book presents an in depth study of the Calabrian Ndrangheta s expansion to Germany It offers a nuanced framework for understanding mafia expansion according to which mafia groups either transplant their core business model attempting to govern in the new territory trade in licit and illicit markets as one criminal actor among many or become inactive and hibernate in a stage from which they may or may not resurface Taken together the book proposes a comprehensive explanation of mafia expansion that goes beyond specific case studies and uncovers relationships between migration trust and enforcement dynamics within the context of organized crime

The Secret Power of Criminal

Organizations Giovanni A. Travaglino, Lisbeth Drury, 2020-09-02 This Brief presents a social psychological approach to understanding the reaction of communities to organized crime and illegal groups Based on a new theoretical framework and the latest empirical evidence this book explores questions of how criminal organizations are able to gain power and exert governance over entire territories This book draws on the prototypical example of Italian organized crime and analyzes the thesis that the power of criminal groups is grounded in dynamics of legitimization rather than fear or coercion The

compliance of a community is seen here as stemming from the endorsement of specific cultural values and norms These cultural values are actively appropriated mobilized and transmitted by criminal groups a dynamic the authors have labeled Intracultural Appropriation Theory The book emphasizes what can be learned from using this emerging theory in similar settings such as those of terrorist groups and violent gangs and points the way to solutions for this social problem Murda Mami's "SoLo",2014-02-25 SoLo is originally from Brooklyn New York At a young age he began to write poetry and short stories about his life experiences He is a very quiet person that loves to look listen and observe his surroundings Writing has always been a hidden talent of his that very few people knew about At a young age SoLo ventured out on his own going nowhere fast From his teenage years well into his early twenties he learned how to survive the hard way on the streets of New York He did what he had to do to make a dollar out of fifteen cents He encountered many people during his struggle to find what he was looking for in life He learned quickly that he could not trust everyone he met because not everyone has his best interest at heart He found himself getting in and out of trouble so he decided to relocate to make a better life for himself Now SoLo is older but still a young man He has settled down in life and decided to pull all of his writings out of his secret hiding spot and introduce some of it to the world in his books Some of his real life experiences are mentioned in some of his writings Like they say Been there done that He has seen done and tried a lot of things that he has paid for in life because of the hard lessons he learned growing up But it has made him a better man today SoLo presently lives in North Carolina in a secluded location with his wife and family Standing 6 2 he loves to workout and play basketball He also enjoys watching sports on television and doing things with his family and spends most of his quite time writing for your reading enjoyment
