Republic Advisory Committee, 1993

**The Australian People** James Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture The Australian People documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation

**This Time** Benjamin T. Jones, 2018-01-24 To propose an Australian should be our head of state doesn't seem revolutionary Isn't that already the case some may even ask Flip a coin and you'll have your answer In This Time Benjamin T Jones charts a path to an independent future He reveals the fascinating early history of the Australian republican movement of the 1850s and its larger than life characters He shows why we need a new model for a transformed multicultural nation and discusses the best way to choose an Australian head of state With republicans leading every government around the nation the time is ripe for change

*Republicanism* Mark McKenna, Wayne Hudson, 2013-05-09 We Love the Queen We honour the Queen We serve the Queen R G Menzies We must be ourselves Patrick White This collection of readings is designed to transform the way Australians understand republicanism The editors Mark McKenna and Wayne Hudson have harvested a wealth of previously neglected historical sources to produce a fascinating collection of original documents that grapple with the issue of Australian republicanism In the vein of Manning Clark s Select Documents in Australian History this collection offers an inspiring and salient sample of Australian viewpoints from the famous to the obscure the official to the flagrantly informal the rhetorical to the ridiculous McKenna and Hudson argue with wit and conviction that the republic has a place in Australia s future but only if it is a republic founded on a vision of inclusion This is the first principle of creating a sense of ownership and belonging a republic about which people might begin to care **APAIS 1994: Australian public affairs information service** ,

Constitutional Conventions Nicholas Barry, Narelle Miragliotta, Zim Nwokora, Haig Patapan, 2025-02-18 This book analyses constitutional conventions as a powerful but largely neglected framework for studying the law and politics of constitutions Constitutional conventions are the unwritten rules that inform and circumscribe the political behaviour of individuals organisations and a political system They are as important as the formal legal rules that define written constitutions and shape modern states yet unlike formal written rules conventions have received only limited scholarly attention This book considers conventions as a lens to theorise and to analyse the institutional dynamics of contemporary constitutions Interrogating constitutional conventions in a wide variety of contexts including in Westminster parliamentary systems in presidential systems and in non democratic regimes the book offers new perspectives for understanding diverse aspects of constitutional politics such as the capacity of conventions to constrain populists how conventions influence constitutional transformation how they reflect and reshape core democratic values such as citizenship and constitutional identity and what they reveal about the character of authoritarian regimes The book thus demonstrates how the dynamics of conventions shape the very character of constitutions The book will be of interest to legal theorists constitutional lawyers and political scientists 100 Years Paul Kelly, 2001-03-01 Based on the forthcoming 5 part television series 100 Years The

Colomb [and others] ed., with an intr., by A.S. White** Britannic confederation, 1892 An Australian Republic Greg Barns, Anna Krawec-Wheaton, 2006 An Australian republic is so near yet so far The prime minister John Howard is so vehemently opposed to any change in the status quo that there seems little likelihood of the republic being placed on the political agenda in the near future As the 1999 referendum showed the confrontational nature of our democracy is tailor made for political

opportunism and negative campaigns and will always be a potential obstacle to the republican cause The desire for a more appropriate constitutional form for contemporary Australia has been placed in the too hard basket by many of its supporters Greg Barns and Anna Krawec Wheaton are more hopeful They argue that the community is broadly republican in sentiment and that forces within both major political parties are sympathetic They believe that the situation could change rapidly with a Costello prime ministership presenting a real opportunity to build consensus across party boundaries and between the major players An Australian Republic examines how the opportunity can be grasped how the conditions necessary for achieving consensus can be created and how the political will to tackle the complex issues of constitutional change can be generated
