The Economic Development Of The Ussr

Paul R. Gregory, Robert C. Stuart

The Economic Development Of The Ussr:

The Economic Development of the USSR Roger Munting, 2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries

An Economic History of the U.S.S.R. Alec Nove, 1969 Study in historical perspective of developments in economic policy in the USSR covers economic structures and economic administration prior to and during the 1st world war the position during the 50 years of the communist regime political leadership of the country the collective economy industrialization political problems economic growth etc Bibliography pp 389 to 391 and statistical tables

Soviet Economic Development from Lenin to Khrushchev Robert William Davies, 1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world

Majskij, 1936 **Economic Development of the Soviet Union** Sudhindra Chandra Chakrabarti, Kunja Bihari Kundu, Madan Mohan Patra, 1965 **Target Figures for the Economic Development of the USSR 1959-1965** Nikita Sergeevitch Khrouchtchev, 1959 **Economic Growth in Japan and the USSR** Angus Maddison, 2013-11-05 In terms of output the USSR and Japan account for one fifth of the world's economy occupying second and third places behind the United States Japan has the world's fastest growth of per capita income and the USSR has not lagged far behind But a century ago they were static feudal societies This study analyzes the policies which enabled them to transform their economies and to catch up with the developed world The strategies of the two nations adopted have been very different Japan has maintained small farms and factories developed a labor intensive technology and has successfully penetrated the world export markets The USSR on the other hand has created giant farms and factories and remained fairly isolated from world trade Since 1945 the USSR has devoted one eighth of her resources to military purposes Japan practically nothing In *Economic Growth in Japan and the USSR* Angus Maddison offers a comparative analysis of the growth experience of these two countries that greatly enlarges our knowledge of the development process A better understanding of their past experience can be particularly illuminating and relevant for economic policy in developing countries today This classic text was first published in 1969 Economic Development of the Soviet Union A. Ali, E. Jāmāna, A. Baset, 1966 **The USSR's First Economic Development Plans** N. S. Koval', 1973 *Law And Economic Development In The Soviet Union* Peter B. Maggs, 2019-03-04 In the past Soviet policymakers planners and jurists in their enthusiasm for economic and technological development devoted

little attention to the often negative consequences of modernization. New concerns however have become apparent in recent literature, statutes and decrees. In this book, political scientists and experts on Soviet law address many of those concerns, analyzing the legal issues associated with economic modernization in the USSR. The central themes of the book are the increasingly centralized nature of the policymaking process in the USSR and Eastern Europe and the marked tendency to rely on law as a principal mechanism for managing the undesirable consequences of scientific and technological progress. The authors also assess the impact of the scientific-technical revolution on Soviet-East European relations and East-West relations, emphasizing the foreign policy consequences of increased financial and technological interdependence. The study does not deal with narrow legalistic issues of technical progress; rather, its focus on policy questions reflects the inclination of Soviet and Eastern European governments to view those questions in terms of law and legislative activity and to see law as an instrument of social engineering.
