The Definitive Journals of Lewis and Clark Meriwether Lewis, William Clark, Gary E. Moulton, 2004-01-01 In twelve remarkable volumes Gary E Moulton has edited the journals of the Lewis and Clark expedition of 1804-6 thus making clear and accessible to all readers the plethora of maps and words with which Meriwether Lewis and William Clark documented one of the greatest ventures of discovery in American history With the Comprehensive Index the thirteenth volume Moulton completes his work and offers everyone who consults the Journals a complete and detailed means of locating specific passages references and particular people or places within the larger work Throughout the edition his guiding principles have been clarity and ease of use Consequently the notes are indexed more thoroughly here than in most works and include modern place names modern denominations for Indian nations and current popular and scientific names for various cited species This volume also contains a list of corrections for earlier volumes *Journals of Lewis and Clark* Meriwether

Lewis, William Clark, 2009-09-29 At the dawn of the 19th century Meriwether Lewis and William Clark embarked on an unprecedented journey from St Louis Missouri to the Pacific Ocean and back again Their assignment was to explore the newly acquired Louisiana Territory and record the geography flora fauna and people they encountered along the way The tale of their incredible journey meticulously recorded in their journals has become an American classic **The War with Spain in 1898** David F. Trask, 1996-01-01 Remember the Maine The war cry spread throughout the United States after the American battleship was blown up in Havana harbor on February 15 1898 Americans already sympathetic with Cuba's struggle for independence from Spain demanded action Brief and decisive not too costly the Spanish American War made the United States a world power David F Trask's War with Spain in 1898 is a cogent political and military history of that splendid little war It describes the failure of diplomacy the state of preparedness of both sides the battles including those of Theodore Roosevelt and his Rough Riders the enlargement of conflict to rout the Spanish from Puerto Rico and the Philippines and the misconceptions surrounding the war [The Journals of the Lewis and Clark Expedition: Comprehensive Index](#), 1983

The Journals of the Lewis and Clark Expedition: August 30, 1803-August 24, 1804 Meriwether Lewis, 1983-01-01 The journey of the Corps of Discovery under the command of Captains Meriwether Lewis and William Clark across the American West to the Pacific Ocean and back in the years 1804-1806 seems to me to have been our first really American adventure one that also produced our only really American epic The Journals of the Lewis and Clark Expedition now at last available in a superbly edited easily read edition in twelve volumes of an eventual thirteen almost two centuries after the Corps of Discovery set out This important text has not been fully appreciated for what it is because of two centuries of incomplete and inadequate editing All three editions previous to this excellent one from the University of Nebraska were flawed by significant omission Thus my gratitude to the present editor Gary Moulton and his assistant editor Thomas Dunlay for bringing what I believe to be a national epic into plain view at last For almost two hundred years their Lewis and Clark's

strong words waited there but not there printed but not read our silent epic But words can wait now the captains writings have at last spilled out and fully in this regal edition When the Atlas of the Lewis and Clark Expedition appeared in 1983 critics hailed it as a publishing landmark This eagerly awaited second volume of the new Journals of the Lewis and Clark Expedition begins the actual journals of those explorers whose epic expedition still enthalls Americans Instructed by President Jefferson to keep meticulous records bearing on the geography ethnology and natural history of the trans Mississippi West Meriwether Lewis and William Clark and four of their men filled hundreds of notebook pages with observations during their expedition of 1804-6 The result was in is a national treasure a complete look at the Great Plains the Rockies and the Pacific Northwest reported by men who were intelligent and well prepared at a time when almost nothing was known about those regions so newly acquired in the Louisiana Purchase Volume 2 includes Lewis s and Clark s journals for the period from August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River to August 1804 when the Corps of Discovery camped near the Vermillion River in present South Dakota The general introduction by Gary E Moulton discusses the history of the expedition the journal keeping methods of Lewis and Clark and the editing and publishing history of the journals from the time of Lewis and Clark s return Superseding the last edition published early in this century the current edition brings together new materials discovered since then It greatly expands and updates the annotation to take account of the most recent scholarship on the many subjects touched on by the journals Lewis and Clark Road Trips: Exploring the Trail Across America Kira Gale,2006 The Definitive Journals of Lewis & Clark: Through the Rockies to the Cascades Meriwether Lewis,William Clark,2002 Donated by the Alabama Forest Owners Association Educational Fund *Lewis and Clark* Vernon Preston,2013-01-22 By Terry Nathans he weather and climate of the trans Mississippi west was virtually unknown at the begin Tning of the nineteenth century This changed dramatically shortly after the Louisiana P chase was signed in 1803 which set the stage for acquiring the first systematic weather measurements of the trans Mississippi west The framework for obtaining these measurements was outlined in the now famous June 20 1803 letter from President Thomas Jefferson to his prot g and personal secretary Captain Meriwether Lewis In that letter Jefferson instructed Lewis to plan and carry out an overland expedition to the Pacific Ocean for the purposes of commerce and to observe and record a broad range of natural history subjects including the climate as characterised by the thermometer by the proportion of rainy cloudy clear days by lightning hail snow ice by the access recess of frost by the winds prevailing at different s sons the dates at which particular plants put forth or lose their flower or leaf Jackson 1978 p 63 Jefferson s instructions to Lewis which were part of his decades long ambition of laun ing an expedition to explore the interior of North America were made at the threshold of what Fleming 1990 has called the expanding horizons in meteorology During this period more reliable meteorological instruments began to emerge allowing for a more comprehensive and systematic acquisition of weather data **The Journals of the Lewis & Clark Expedition: Comprehensive index** ,1983 The
