The Local Church And Mibion:

Missions Andy Johnson,2017 Every local church should be engaged with global missions even if most individuals in the church aren't called to go overseas But what does this engagement actually look like How can local churches train send and support missionaries well Unpacking principles from the Bible and applying them in the context of real life in a local church this new book in the 9Marks Building Healthy Churches series is filled with practical steps and advice for supporting missionaries forming international partnerships sending short term teams and engaging with the nations here at home This book casts a vision for the local church as the engine of world missions for the joy of all people and the glory of God **Why on Earth Are There Churches?** Michael R. Privett,2012-08 After years of observation I have concluded that so many local churches function without regard to their God given biblical mission and objectives because of their unclear mission their unbiblical targets or their unbalanced objectives The Lord God has already given His church a clearly defined mission for the present age Yet so many local churches seem to function without understanding their biblical mission their God directed reason for existence while other local churches and their leaders have revised or even compromised their God given mission thinking that they know better than God Some churches disband Sunday school dismantle the choir and disassemble pews only to replace them with other programs and ideas that will become traditional soon enough Traditions customs and worship styles vary from culture to culture and from generation to generation I've been in the gospel ministry long enough to have seen the pendulum swing back and forth a time or two So many ministries programs concepts and styles are not new but just repackaged Today's new fresh blended methods will become traditional to the next generation after a short period of time Too often we are more involved in following the latest fad than we are in striving to do all to the glory of God What really matters is whether you have presented a true and accurate opinion and view of the nature and character of God so that others will praise and exalt Him to His worthy place of honor esteem and excellence **A People for His Name** Paul A. Beals,1995 In world missions the author proposes the local church is the biblical sending body through which missionaries serve The author places emphasis upon the practical outworking of the mission responsibilities of the local church as well as its relationship to mission agencies missionary personnel and Christian schools **The Oxford Handbook of Mission Studies** Kirsteen Kim,Knud Jørgensen,Alison Fitchett-Climenhaga,2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology history and methodology of the propagation of Christian faith and the engagement of Christians with cultures religions and societies worldwide It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives who are from all continents It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical evangelical Catholic and Orthodox sources and by a spate of academic works on the topic

Western church leaders now apply insights from foreign missions such as inculturation liberation interfaith work and power encounter to today's multicultural societies. Meanwhile there are new initiatives in mission from the Majority World where most Christians live so that sending is not only from the west to the rest but from everywhere to everywhere. Therefore this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements. In a time of growing recognition of religions more generally this work examines and theorizes the missional dimensions of the world's largest religion its agendas growth outreach role in public life effect on cultures relevance for development and its approaches to other communities.

The Local Church, Agent of Transformation Steven M. Voth, 2004 Today's society is plagued by social injustices extreme religiosity and poor regard for authority caused by an extreme sense of individualism and apathy. The need for an affective healing ministry is great but the Christian church is falling far short in accomplishing this task. The book *The Local Church Agent of Transformation* is a group of essays written by twelve different Christian scholars which focus on the practice of Integral or holistic Mission. This book is geared towards the local church however there are important words for mega churches too. Its goal is to present a clear ecclesiology so churches can learn to be salt and light to their community in the way that Jesus calls us to be.

Pentecostal Churches in Transition Shane Clifton, 2009 The global growth of Pentecostal movements during the course of the twentieth century has been widely documented although to date there has been little written on their developing ecclesiology. After making the case for a concrete rather than idealised approach to ecclesiology this book describes and analyses the transitions that have framed the ways in which Australian Pentecostals have understood church life and mission. From a loosely knit faith missions movement to congregational free church structures to the so called apostolic models of mega churches Australian pentecostalism stands as a microcosmos of ecclesial developments that have occurred throughout the world. This book therefore provides a means of reflecting upon what has been gained and lost in the process of ecclesiological change.

Mission Partnership in Creative Tension Samuel Cueva, 2015-04-14 Samuel Cueva has refined his concept of partnership in mission by advocating the use of reciprocal contextual collaboration in this important contribution to scholarly reflection on contemporary missiology. Referencing historical theological and functional aspects of how mission has been carried out as well as analyzing its impact on the evangelical movement the author identifies that mission always develops with positive and negative tensions. Emphasizing an understanding of current missions which include traditional networking and emergent models and how they can be combined interconnected and interchanged the author proposes a fresh model that ensures the suitability for every mission context.
