Working with Trauma-Exposed Children and Adolescents Joanna Pozzulo, Craig Bennell, 2018-12-07 Far too often children and youth experience trauma from rare events such as mass shootings terrorism attacks and school lockdowns to very common occurrences such as bullying exposure to drugs and alcohol or various mental health issues They can experience these events both directly and indirectly from surfing the internet watching television or through their friends Our children spend a large portion of their day at school interacting with other students teachers and school personnel where these topics are raised and discussed This edited volume addresses how our teachers and school personnel can help students deal with these potentially traumatic events to reach the most positive possible outcomes This collection brings together leading experts including academics and professionals working in the field to provide the most current evidence based practices on

how to help students who may have experienced or witnessed trauma It presents research and advice on how to respond to traumatic events regarding bullying drugs and alcohol sexual abuse mental health lesbian gay bisexual transgender and queer LGBTQ safety stranger danger childhood disruptive behaviors school shootings and lockdowns and terrorism It also includes a chapter focused on how to implement a school safety program Schools cannot deal with these issues alone effective strategies must engage family members and the broader community Hence the collection includes a chapter on how schools can partner with families and the communities they reside in to bring about positive change All this work pays close attention to cultural and religious sensitivity socio economic variabilities diversity issues and developmental stages [From Safety to Sense of Safety](#) Jenni Spannari,Liz Grant,Monica Worline,Anne Birgitta Pessi,Henrietta Grönlund,Birgitte Johansen,2025-09-23 The sense of safety is an essential foundation for human flourishing and well being It is a basic human need grounded in the evolutionary history of the human species as a part of the ecosphere However social political and health related global challenges have eroded deeply not only safety but our sense of safety Sense of safety is an individual experience but it is deeply rooted in the social communal and societal frames Thus in research we need to look at the sense of safety understanding that the wider societal situation strongly consists of individual and grass roots level experiences All people notwithstanding their race or age or any other variable need to feel safe Sense of safety is a feeling of relative security a comprehensive yet subjective psychological experience It requires ongoing appraisal closely associated with a person s awareness and perception That is sense of safety is related to safety but never the same and it is always about emotions It is deeply social never just about an individual and should be studied as such Sense of safety is pivotal for individuals communities in societies Interdisciplinary research on sense of safety is scarce and often academically too shallow e g not defining sense of safety as in e g Zacharia et al 2021 Murakami et al 2017 nor even differentiating between safety and sense of safety e g in Zou Yu 2022 Research and mainstream media focus mostly on the large scale picture of safety e g statistics trends in numbers and political reporting But what are the individual level experiences of sense of safety and sense of security today How are they culturally bound and to what extent more universal [Coalition Commentary](#) ,2007

Trauma-Informed Restorative Dialogues Claudia Christen-Schneider,2025-03-13 This book combines trauma informed practice with restorative justice to explore how restorative dialogues can support those affected by trauma Trauma informed practice involves understanding the impact of trauma and creating an environment that is sensitive to its effects which is essential for fostering meaningful dialogue between victims and offenders Conversely restorative justice focuses on addressing harm through inclusive processes involving victims offenders and the community and aims to respond to the needs of all parties affected by the harm By integrating these perspectives the book illustrates how trauma informed restorative dialogues an approach that expands access to restorative justice when direct encounters between victims and offenders are not possible can improve access to justice promote recovery and facilitate transformation It provides practical

guidance based on insights from victims and facilitators in five European countries and offenders in Swiss prisons and addresses secondary trauma among practitioners offering strategies for their self care and organisational care Aimed at practitioners academics policy makers and service providers this in depth research fills a gap in the restorative justice literature by demonstrating how trauma informed principles can strengthen communities and support those affected by serious harm
