## **Why This New Race Ethnic Reasoning In Early Christianity:**

Why This New Race Denise Buell, 2008-08-28 Denise Kimber Buell radically rethinks the origins of Christian identity arguing that race and ethnicity played a central role in early Christian theology Focusing on texts written before the legalization of Christianity in 313 C E including Greek apologetic treatises martyr narratives and works by Clement of Alexandria Origen Justin Martyr and Tertullian Buell shows how philosophers and theologians defined Christians as a distinct group within the Roman world characterizing Christianness as something both fixed in its essence and fluid in its acquisition through conversion Buell demonstrates how this view allowed Christians to establish boundaries around the meaning of Christianness and to develop the kind of universalizing claims aimed at uniting all members of the faith Her arguments challenge generations of scholars who have refused to acknowledge ethnic reasoning in early Christian discourses They also provide crucial insight into the historical legacy of Christian anti-Semitism and contemporary issues of race A Social History of Christian Origins Simon J. Joseph, 2022-12-30 A Social History of Christian Origins explores how the theme of the Jewish rejection of Jesus embedded in Paul's letters and the New Testament Gospels represents the ethnic social cultural and theological conflicts that facilitated the construction of Christian identity Readers of this book will gain a thorough understanding of how a central theme of early Christianity the Jewish rejection of Jesus facilitated the emergence of Christian anti-Judaism as well as the complex and multi-faceted representations of Jesus in the Gospels of the New Testament This study systematically analyzes the theme of social rejection in the Jesus tradition by surveying its historical and chronological development Employing the social psychological study of social rejection social identity theory and social memory theory Joseph sheds new light on the inter-relationships between myth history and memory in the study of Christian origins and the contemporary re-construction of the historical Jesus A Social History of Christian Origins is primarily intended for academic specialists and students in ancient history biblical studies New Testament studies Religious Studies Classics as well as the general reader interested in the beginnings of Christianity *Ethnic Negotiations* Eric D. Barreto, 2010 slightly revised version of a doctoral dissertation Emory University on April 12 2010 p v Ethnicity and Inclusion David G. Horrell, 2020-10-29 Some of today's problematic ideologies of racial and religious difference can be traced back to constructions of the relationship between Judaism and early Christianity New Testament studies which developed contemporaneously with Europe's colonial expansion and racial ideologies is David Horrell argues therefore an important site at which to probe critically these ideological constructions and their contemporary implications In *Ethnicity and Inclusion* Horrell explores the ways in which ethnic and religious characteristics feature in key Jewish and early Christian texts challenging the widely accepted dichotomy between a Judaism that is ethnically defined and a Christianity that is open and inclusive Then through an engagement with whiteness studies he offers a critique of the implicit whiteness and Christianness that continue to dominate New Testament studies today arguing that a diversity of embodied perspectives is

epistemologically necessary **Those for Whom the Lamp Shines** Vince L. Bantu, 2023-09-26 In *Those for Whom the Lamp Shines* Vince L. Bantu uses the rich body of anti Chalcedonian literature to explore how the peoples of Egypt both inside and outside the Coptic Church came to understand their identity as Egyptians Working across a comparative spectrum of traditions and communities in late antiquity at the intersection of religious and other social forms of identity Bantu shows that it was the dissenting doctrines of the Coptic Church that played the crucial role in conceptualizing Egypt and being Egyptian Based on the study of neglected Coptic and Syriac texts *Those for Whom the Lamp Shines* offers the only sustained treatment of ethnic and religious self understanding in Africa s oldest Christian church **Ethnicity, Race, Religion** Katherine M. Hockey, David G. Horrell, 2019-12-26 Religion ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible largely due to the modern discipline of biblical studies having developed in the context of Western Europe concurrent with the emergence of various racial and imperial ideologies The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity the identities of Jews and Christians and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study The contributors critique various Western European and North American contexts and bring fresh perspectives from other global contexts providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity race empire nationhood and religion Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective this volume is vital not only for biblical scholars but those invested in Christian Jewish and Muslim identity **Perspectives on Science and Christian Faith**, 2007 *Abraham, Ancestry, and Ethnicity in Luke's Gospel* Andrew Benko, 2024-12-15 *Abraham Ancestry and Ethnicity in Luke s Gospel From These Stones* explores how Luke employs ancestry especially descent from Abraham to recategorize believers and nonbelievers Capitalizing on the surprising slipperiness of race antiquity Luke offers a new layer of ethnic identity to gentile believers as Abraham s extended family **Journal of Biblical Literature**, 2008 **A Feminist Companion to Patristic Literature** Amy-Jill Levine, Maria Mayo Robbins, 2008-07 In its twelfth volume this text examines a number of Patristic texts and early Christian documents from a feminist perspective **Catholicity Challenging Ethnicity** Erik Berggren, 2016 This book deals with the relationship between the catholicity of the Church and ethnicity Churches confess their catholicity which means that they declare that their members belong to one community but at the same time the churches are often internally divided along ethnic lines South Africa was a divided society under apartheid which also shaped the churches ethnically The legacy of apartheid continues to cause division between people through inequality injustice skewed power relations and marginalisation The author presents an analytical tool that has been derived from key documents of the Faith and Order movement and the World Council of Churches concerning the catholicity of the Church In addition he tests the catholicity of the Church against an operative ecclesiology of South African congregations and churches twenty years after the dismantling

of apartheid *Journal of ancient Christianity*, 2005 *What is Gnosticism?* Karen L. King, 2003 A study of gnosticism examines the various ways early Christians strove to define themselves in a pluralistic Roman society while questioning the traditional ideas of heresy and orthodoxy that have previously influenced historians *Discipline and Diversity* Ecclesiastical History Society. Summer Meeting, 2007 New essays on a central dichotomy of history and theology the need to reconcile the diversity of the Church with a unifying discipline **Jesus and the People of God** Joseph H. Hellerman, 2007 How did the Jesus movement a messianic sectarian version of Palestinian Judaism transcend its Judaeian origins and ultimately establish itself in the Roman East as the multi ethnic socio religious experiment we know as early Christianity In this major work Hellerman drawing upon his background as a social historian proposes that a clue to the success of the Christian movement lay in Jesus own conception of the people of God and in how he reconfigured its identity from that of ethnos to that of family Pointing first to Jesus critique of sabbath keeping the Jerusalem temple and Jewish dietary laws practices central to the preservation of Judaeian social identity he argues that Jesus intention was to destabilize the idea of God s people as a localized ethnos In its place he conceived the social identity of the people of God as a surrogate family or kinship group a social entity based not on common ancestry but on a shared commitment to his kingdom programme Jesus of Nazareth thus functioned as a kind of ethnic entrepreneur breaking down the boundaries of ethnic Judaism and providing an ideological foundation and symbolic framework for the wider expansion of the Jesus movement Joseph Hellerman s *Jesus and the People of God* takes a whole new approach to understanding the social dynamic at work in Jesus public teaching and ministry an important breakthrough in Jesus research that deserves a careful hearing Craig A Evans Payzant Distinguished Professor of New Testament Acadia Divinity College and author of *Jesus and his Contemporaries* Has the recent phase of the quest of the historical Jesus properly stressed those ways in which Jesus broke from the prevailing nationalism of his day Hellerman puts it all together offering a compelling portrait of the Jewish Jesus who nevertheless saw the fulfillment of Sabbath and festivals temple and purity laws in him Craig L Blomberg Distinguished Professor of New Testament Denver Seminary and author of *Jesus and the Gospels* *Anthropology in the New Testament and Its Ancient Context* Michael Labahn, 2010 Most of the articles were presented and discussed at the seminar *Early Christianity between Judaism and Hellenism* at the Annual Meeting of the European Association of Biblical Studies in Piliscsaba and Budapest Hungary in August 2006 The anthropological quest is still one of the classical approaches in historical critical as well as in other methodological approaches to the New Testament The complexity of anthropological ideas in the New Testament is seldom presented neither explicitly nor in clearly defined terms but rather in stories about human beings or their inter actions and or parenetic teaching that is based on some often unstated presuppositions of what humans are like The different essays in *Anthropology in the New Testament and its Ancient Context* are taking care of this complex situation and address a selection of important problems from the variety of ideas on anthropology in Early Christianity as well as in its Jewish and its

Hellenistic context The book does not aim to show a coherent New Testament anthropology as it is to write a coherent New Testament theology but rather tries to present new insights into the complexity of ancient anthropological discourses With that aim the collection includes presentations on the human body and its purity a key feature in many ancient cultures and their anthropological systems questions of purity and impurity on the key anthropological terms *sarks* and *soma* in Paul how a Greco Roman reader would understand Paul s anthropological reasoning Paul s anthropology is also set in relation to Philo s view of humanity Platonic tripartite anthropology is also part of an article analyzing the common elements in the teaching concerning the human soul among Sethian Valentinian and Platonic writers Conversion another kind of adaptation of a Hellenistic philosophical concept to early Christianity different early Christian ideas of the resurrected body and so called sepulchral anthropology are further subjects addressed in the book which finally deals with selected anthropological imagery in the Gospel of John and with anthropological perspectives in Hebrews The book contains contributions by Ida Froehlich Tom Holmen Lorenzo Scornaienchi Martin Meiser George van Kooten Paivi Vahakangas Miguel Herrero de Jauregui Outi Lehtipuu Imre Peres Margareta Gruber and Walter Ubelacker The essays offer some new angles new methodological approaches and important insights relevant to anthropological views in the New Testament **Book Review Digest** ,2009

**A Former Jew** Love L. Sechrest,2009 Drawing on a Jewish understanding of race in Second Temple Judaism this book describes Pauline Christianity as a nascent ancient racial group **Hadrian and the Christians** Marco Rizzi,2010 The book sheds new light on a much debated issue in the field of ancient history the spread of Christianity in the Roman Empire and its relationship with Judaism in the 2nd century The contributions collected in this volume illustrate from a multidisciplinary perspective including archaeology cultural religious and political history how Christianity found a peculiar way of integrating into the transforming empire under Emperor Hadrian In this way Christianity gained an increasing place within Roman society which ultimately opened the door to its affirmation in subsequent centuries **Exploring Early Christian Identity** Bengt Holmberg,2008 The main point of emphasis in the book is that approaching the Christian movement s early history through investigating its identity helps us to understand how the followers of Jesus developed from an intra Jewish messianic renewal movement into a new religion with a major Gentile membership and major differences from its Jewish matrix all in only a hundred years Identity is not simply a collection of beliefs that was agreed upon by many first century Christians It is embedded or rather embodied in real life as participation in the founding myths narrativized memory of and accepted teaching on Jesus in cults and rituals as well as in ethical teaching and behavioral norms crystallized into social relations and institutions This is a dynamic feedback process full of conflicts and difficulties both internal and caused by the surrounding society and culture The authors explore different aspects of identity such as how the Gospels narrativization of the social memory shapes and is shaped by the identity of the groups from which they emerge how labels such as Jewish and Christian should and should not be understood the identity forming role of behavioral norms in letters and

the interplay between competing leadership ideals and the underlying unity of different Christian groups They also show that identity formation is not necessarily related to innovation in moral teaching nor averse to making use of ancient conventions of masculinity with their emphasis on dominance
