

Why do we need a Constitution?

A constitution is a fundamental and overarching legal and political document that sets the framework for the operation of a government and its relationship with the citizens it governs.

The Constitution of India holds a unique place in the world; it is the longest Constitution globally. Initially, it had three hundred ninety-five articles in twenty-two parts and eight schedules. It comprises around 145,000 words, making it the world's second-largest functioning constitution. It currently has a preamble, twenty-five parts with twelve schedules, five appendices, four hundred forty-eight articles, and one hundred and one amendments.
