Dystopian Literature M. Keith

Booker, 1994-05-25 Dystopian literature is a potent vehicle for criticizing existing social conditions and political systems

While utopian literature portrays ideal worlds dystopian literature depicts the flaws and failures of imaginative societies

Often these societies are related to utopias and the dystopian writers have chosen to reveal shortcomings of those social systems previously considered ideal This reference overviews dystopian theory and summarizes and analyzes numerous dystopian works By reviewing the critical thought of particular dystopian theorists the beginning of the volume provides a theoretical context for the remainder of the book Because dystopian literature is so closely related to utopian writing the reference profiles and discusses eight important utopian works The rest of the book includes entries for numerous dystopian novels plays and films Each entry summarizes the work and discusses dystopian themes The entries include short bibliographies with full bibliographic information provided at the end of the volume This comprehensive guide covers the full period from Thomas More s Utopia to the present day *Crisis Cinema in the Middle East* Shohini Chaudhuri,2022-06-16 In recent years the Arab world and Iran have been afflicted by cataclysmic events among them brutal state crackdowns of revolutions Yet filmmakers have persisted in their desire to tell their stories against the odds in creative acts that attest to their imagination courage and resilience In this book Shohini Chaudhuri examines a broad range of films made during the tumultuous period since 2009 ranging from internationally award winning festival favourites such as For Sama 2019 Capernaum 2018 and Taxi Tehran 2015 to lesser known films from the region While freedom of expression is often understood through the lens of state censorship she reveals the different types of obstacles that filmmakers face and their strategies for overcoming them so that those constraints are transformed into creative opportunities Using her original interviews with filmmakers such as Waad al Kateab Yasmin Fedda Larissa Sansour Mani Haghighi and Ossama Mohammed she identifies nine creative strategies for producing work under conditions of crisis Chaudhuri argues that creativity is indelibly shaped by constraints whether these are externally imposed by existing materials funding and socio political conditions or self imposed constraints through choices of genre or acceptance of rules and responsibilities She shows that the range of creative strategies emanating from the region is much wider than allegory and becoming ever more direct She thus opens up new lines of inquiry into cinematic creativity in sites of conflict and crisis in the Middle East and beyond
