Philosophy, Theology, and Hegel's Berlin Philosophy of Religion, 1821-1827 Philip M. Merklinger,1993-01-01 This book examines Hegel s contribution to the debate about the relationship between philosophy and theology reason and faith The author locates the debate within the philosophy of religion displaying that there is a need for philosophy to enter into dialogue with and to reflect upon the contents of theology Utilizing the recently published critical editions of Hegel s Berlin Lectures on the Philosophy of Religion the author substantiates this insight by tracing dialectically the development of Hegel s notion of the philosophy of religion through the 1821 1824 and 1827 lecture series on religion Not only does the author demonstrate that philosophy needs to incorporate theology in its thinking but he also establishes that such incorporation means that the philosophy of religion will be a continuously developing mode of reflection Indeed the author notes this developing philosophy of religion can for Hegel only take place through dialectical interaction with the leading theologies and theologians of one s time The book shows that this inner development of the philosophy of religion is also the inner development of the Spirit itself *Reincarnation* Jerome A.
