State Local Relations A Partnership Approach:

State-Local Relations Joseph F. Zimmerman, 1995-08-30 This is a revision and update of Zimmerman's classic study of relations between state and local government. The first edition published in 1983 was based on three decades of research into intergovernmental affairs and examined the legal, financial, and structural foundations of state-local relations. This new edition adds a fourth decade of research and brings the work up to date through the early 1990s, adding a chapter on state mandates and local governments reviewing and analyzing the changes in fortune of state and local governments and the impact of those changes on their relations between each other and between themselves and the federal government. Governmental Interactions Joseph F. Zimmerman, 2012-04-02 Relations between state governments and their respective local governments are of crucial importance yet they have remained largely unexplored by scholars. This neglect is all the more surprising in light of the fact that most public services are provided directly to citizens by general purpose local governments who are themselves subject to varying degrees of control by their respective state governments. In *State-Local Governmental Interactions* Joseph F. Zimmerman builds on work conducted for the US Advisory Commission on Intergovernmental Relations pertaining to local government discretionary authority, intergovernmental service agreements, state and federal mandates, and voluntary and state-mandated transfers of functional responsibility. He demonstrates that the degree of control states exercise over their political subdivisions varies greatly from very tight control in Vermont to relatively little control in Maine. Particular emphasis is placed on the legal relationships between a state and its various types of political subdivisions. The volume concludes with recommendations for the establishment of a state-local governmental partnership.
