The Making of Human Aggression Herbert Selg,1975 *The Making of Human Aggression* Herbert Selg,Arnold Julius Pomerans,1975 **The Making of Human Aggression** Herbert Selg,1971 **EBOOK: Social Psychology: Conflicts and Continuities** Dennis Howitt,Michael Billig,Duncan Cramer,Derek Edwards,Bromley Kniveton,Jonathan Potter,Alan Radley,1989-12-16 Emphasises the underlying ideas and intellectual debates in social psychology **The Ashgate Research Companion to Political Violence** Marie Breen-Smyth,2016-03-23 Aimed at scholars students and lay persons interested in peace and conflict studies The Ashgate Research Companion to Political Violence is a comprehensive resource to understand the principal debates on political violence a field which is becoming an increasingly important part of courses on peace and conflict Organized into seven main sections this volume deals with a wide range of issues covering the following important research areas Issues of definition and nomenclature and how contests over these relate to political violence Theoretical frameworks and methods for understanding and researching political violence Motivations and goals of those who use political violence The various forms of political violence Perspectives on countering political violence by state and non state actors Why and how political violence ends The aftermath of political violence Contributions by leading scholars in the field provide an authoritative guide and source book on political violence for the scholar the researcher and the informed general reader **Terrors of Uncertainty (Routledge Revivals)** Joseph Gixti,2014-08-21 From Frankenstein and Dracula to Psycho and The Chainsaw Massacre horror fiction has provided our culture with some of its most enduring themes and narratives Considering horror fiction both as a genre and as a social phenomenon Joseph Gixti provides a theoretical and historical framework for reconsidering horror and the cultural apparatus that surrounds it First published in 1989 this book looks at shifts in the genre s meaning its fascination with excess its commentaries on the categories and boundaries of culture and at interpretations of horror from psychology psychoanalysis sociology cultural and media studies Terrors of Uncertainty brings together a provocative range of perspectives from across the disciplines which combine to raise important questions about the relationship between fiction and society and the way in which we use fiction to resolve or evade our fears of uncertainty **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *The Anthropology of War* R. numbingly difficult to eliminate The answers to these questions are framed using the conceptual framework of social dominance theory Social dominance theory argues that the major forms of intergroup conflict such as racism classism and patriarchy are all basically derived from the basic human predisposition to form and maintain hierarchical and group based systems of social organization In essence social dominance theory presumes that beneath major and sometimes profound difference between different human societies there is also a basic grammar of social power shared by all societies in common We use social dominance theory in an attempt to identify the elements of this grammar and to understand how these elements interact and reinforce each other to produce and maintain group based social hierarchy

The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 **LJ, Library Journal** ,1976 **Human Aggression** Robert A. Baron,2013-04-17 also many newer lines of research to which I will return below are represented in various chapters And finally I have included a separate unit on methods for the study of aggression a feature that I believe to be unique to the present volume In these ways I have attempted to produce a text that is as broad and eclectic in coverage as I could make it While the present volume grew in part out of my desire to produce what I thought might prove to be a useful teaching aid it also developed out of a second major motive During the past few years a large number of new and to me exciting lines of investigation have emerged in rapid order These have been extremely varied in scope including among many others such diverse topics as the effects of sexual arousal upon aggression the impact of environmental factors e g heat noise crowding upon such behavior interracial aggression and the influence of heightened self awareness Despite the fact that such topics have already generated a considerable amount of research they were not to my knowledge adequately represented in any existing volume Given this state of affairs it seemed to me that a reasonably comprehensive summary of this newer work might prove both useful and timely
