The Making Of Medieval Spain:

The Making of Medieval Spain Gabriel Jackson, 1972 The Making of Medieval Spain George Jackson, 1972 *History and the Historians of Medieval Spain* Peter Linehan, 1993 A study of medieval Spain and its historians from the chroniclers of the Middle Ages to the revisionists of the post Franco era This book reveals history in the making during the 800 years between the Roman period and what is now described as the birth of the modern state **A History of Medieval Spain** Joseph F. O'Callaghan, 2013-04-15 Medieval Spain is brilliantly recreated in all its variety and richness in this comprehensive survey Likely to become the standard work in English the book treats the entire Iberian Peninsula and all the people who inhabited it from the coming of the Visigoths in the fifth century to the reign of Ferdinand and Isabella Integrating a wealth of information about the diverse peoples institutions religions and customs that flourished in the states that are now Spain and Portugal Joseph F O Callaghan focuses on the continuing attempts to impose political unity on the peninsula O Callaghan divides his story into five compact historical periods and discusses political social economic and cultural developments in each period By treating states together he is able to put into proper perspective the relationships among them their similarities and differences and the continuity of development from one period to the next He gives proper attention to Spain's contacts with the rest of the medieval world but his main concern is with the events and institutions on the peninsula itself Illustrations genealogical charts maps and an extensive bibliography round out a book that will be welcomed by scholars and student of Spanish and Portuguese history and literature as well as by medievalists as the fullest account to date of Spanish history in the Middle Ages The Routledge Companion to the Crusades Peter Lock, 2013-04-15 A compilation of facts figures maps family trees summaries of the major crusades and their historiography the Routledge Companion to the Crusades spans a broad chronological range from the eleventh to the eighteenth century and gives a chronological framework and context for modern research on the crusading movement Not just a history of the Crusades but an overview of the logistical economic social and biographical history this is a core text for students of history and religious studies Christian Identity amid Islam in Medieval Spain Charles L. Tieszen, 2013-05-30 In *Christian Identity amid Islam in Medieval Spain* Charles L Tieszen explores a small corpus of texts from medieval Spain in an effort to deduce how their authors defined their religious identity in light of Islam and in turn how they hoped their readers would distinguish themselves from the Muslims in their midst It is argued that the use of reflected self image as a tool for interpreting Christian anti Muslim polemic allows such texts to be read for the self image of their authors instead of the image of just those they attacked As such polemic becomes a set of borders authors offered to their communities helping them to successfully navigate inter religious living **Spain** Eric Solsten, Sandra W. Meditz, 1990 2d edition Edited by Eric Solsten and Sandra W Meditz Prepared by Library of Congress Federal Research Division Research completed Dec 1988 Describes and analyzes the history politics economics and national security systems of Spain **Early Medieval Spain** Roger

Collins,1991 Medieval Spain R. Collins,A. Goodman,2002-07-30 This volume of essays contains contributions from a very wide range of British American and Spanish scholars Its primary concern is the relationships between the various ethnic cultural regional and religious communities that co existed in the Iberian peninsula in the later Middle Ages Conflicts and mutual interactions between them are here explored in a range of both historical and literary studies to expose something of the rich diversity of the cultural life of later medieval Spain Historical Memory and Clerical Activity in Medieval Spain and Portugal Peter Linehan,2018-02-06 This fourth Variorum collection of articles by Peter Linehan comprises items largely from the past decade The studies represent further investigation of themes broached in earlier works in particular the latest report on the movements of Cardinal John of Abbeville and the related subjects of historiography and historians the interplay of history and government and aspects of sacral monarchy Articles on Zamora s frustrated legal history and Zamora s cardinal extend the Castilian theme across the territorial frontier into the kingdom of Portugal and two other items explore English ramifications and developments in papal procedures Spain ,1991 The Universities of Europe in the Middle Ages: pt. 1. Italy. Spain. France. Germany. Scotland, etc Hastings Rashdall,1895 **The Medieval World** Helen Howe,1992 *Spain, 1000-1200: Art at the Frontiers of Faith* Julia Perratore,2021-11-01 *Spain 1000 1200 Art at the Frontiers of Faith* tells a nuanced story of the dynamic and interconnected medieval Iberian Peninsula while celebrating the artistic exchange among Christians Muslims and Jews in the region during the Middle Ages This Bulletin emphasizes the variety and richness of the Museum s holdings of medieval Iberian artworks which include mosaics frescos architectural decorations manuscripts textiles ivories and metalwork Exploring how artists in medieval Spain drew from many sources of inspiration and navigated religious differences in their art this text underscores the complexity of interfaith interaction during a pivotal era in Spanish history **Medieval Frontier History in New Catalonia** Lawrence J. McCrank,1996 Lawrence McCrank addresses here the processes and consequences of the Christian reconquests in Northeastern Spain during the 12th century focusing specifically on New Catalonia then being won back from the Muslims The history of this region he argues can be analysed best in terms of the concepts of frontier historiography because this frontier context gave the institutions and organizations that emerged there a distinctive and persistent character In particular these studies look at the role of the Cistercians of Poblet and Santes Creus and the Church of Tarragona as colonial agents fostering the resettlement and reorganization of the frontier This consolidation prepared the way for the next wave of Reconquest *The Medieval Iberian Treasury in the Context of Cultural Interchange (Expanded Edition)* ,2020-11-16 *The Medieval Iberian Treasury in the Context of Cultural Interchange* expanded beyond the special issue of *Medieval Encounters* from which it was drawn centers on the magnificent treasury of San Isidoro de Le n to address wider questions about the meanings of cross cultural luxury goods in royal ecclesiastical settings during the central Middle Ages Now fully open access and with an updated introduction to ongoing research an additional chapter composite bibliographies and indices this multidisciplinary volume opens fresh ways into the
