The Evolution Of English Collecting The Reception:

The Evolution of English Collecting Edward Chaney, 2003 This book surveys for the first time the evolution of English collecting Edward Chaney begins with the background history of European collecting focusing in particular on Italy's formative role in this phenomenon then sets English collecting in the sixteenth and seventeenth centuries in context and draws together a unique collection of essays on the subject The book deals with issues ranging from English collecting at the time of the Reformation with all the tension that phenomenon produced in England's relationships with Rome to the early Cecils and conflicts between English Protestantism and Catholic Italianate taste The lives and achievements of great collectors and patrons are examined and specific studies of the evolution of collections of paintings sculptures and prints in England are included as well Publisher Art and Antiquity in the Netherlands and Britain Thijs Weststeijn, 2015-03-20 How did the classical tradition survive on the North Sea shores This richly illustrated book explores the interplay between art and erudition in the seventeenth century It analyses the sources editions and reception of Franciscus Junius's writings to chart how ideas about Northern European painting from Van Dyck to Rembrandt developed as a counterweight to the Italian tradition Thus the language of art in Junius's *The Painting of the Ancients* appears to be related to his seminal work in the field of Germanic linguistics and his discovery of the shared pre-Christian civilization of Holland and England Junius's innovative pairing of scholarship to the painter's practice illuminates the reception of antiquity and the creation of an Anglo-Dutch artistic Arcadia Shakespeare the Bodger Joel B. Altman, 2022-12-06 Drawing inspiration from Robert Greene's deathbed attack on Shakespeare as "an upstart crow beautified with our feathers" the Bodger Elizabethan variant of "the botcher" the mender the patcher argues that Shakespeare's dramas are compositions of "shreds and patches" pieced together by a mind of extraordinary synthetic acuity Such patches include passages of dialogue that as described in the sixteenth century "lead objects before our eyes by means of ekphrasis" The book offers substantial art historical research into the only visual artist named by Shakespeare Giulio Romano who performs an important role in *The Winter's Tale* as the alleged sculptor of a statue of the dead Queen Giulio heir to Raphael's workshop is known primarily as a painter and architect My research has revealed that he was also a designer of sculpture Applying historical and theoretical materials to close readings of several plays I focus on the most critical issues of *The Winter's Tale* King Leontes' sudden fit of jealousy Shakespeare's introduction of a surrogate playwright in the personification of Time who refashions the play from tragedy to comedy assisted by a behind-the-scenes female ghost writer and the Queen's statue amazingly "coming to life" through an interactive declaration of faith The Gendering of Men, 1600-1750 Thomas Alan King, 2004 Taking on nothing less than the formation of modern genders and sexualities Thomas A King develops a history of the political and performative struggles that produced both normative and queer masculinities in the seventeenth and eighteenth centuries The result is a major contribution to gender studies gay studies and theater and performance history *The Gendering of Men 1600-1750* traces the

transition from a society based on alliance which had subordinated all men women and boys to higher ranked males to one founded in sexuality through which men have embodied their claims to personal and political privacy King proposes that the male body is a performative production marking men s resistance to their subjection within patriarchy and sovereignty Emphasizing that categories of gender must come under historical analysis *The Gendering of Men* explores men s participation in an ongoing struggle for access to a universal manliness transcending other biological and social differentials

Pub desc v 1 **John Talman** Cinzia Maria Sicca,2008 This work is a full length study of John Talman the first director of the Society of Antiquaries and one of the most influential collectors of drawings in early 18th century Britain **The Building of Elizabethan and Jacobean England** Maurice Howard,2007 Transformation an introduction Bare ruin d choirs re visited All this new building the urban landscape A language for architecture The role of patrons Representing buildings

The Country House Library Mark Purcell,2019-09-03 Beginning with new evidence that cites the presence of books in Roman villas and concluding with present day vicissitudes of collecting this generously illustrated book presents a complete survey of British and Irish country house libraries Replete with engaging anecdotes about owners and librarians the book features fascinating information on acquisition bordering on obsession the process of designing library architecture and the care and neglect of collections The author also disputes the notion that these libraries were merely for show arguing that many of them were profoundly scholarly assembled with meticulous care and frequently used for intellectual pursuits For those who love books and the libraries in which they are collected and stored *The Country House Library* is an essential volume to own *The Edwardian Sense* Morna O'Neill,Michael Hatt,2010 This is the twentieth in a series of occasional volumes devoted to studies in British art published by the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art and distributed by Yale University Press Book Jacket **Visions of the Courtly Body** Christiane Hille,2013-01-09 In 1603 the beginning of the Stuart reign painting was of minor importance at the English court where the elaborately designed masques of Inigo Jones served as the prime medium of royal representation Only two decades later their most celebrated performer George Villiers the First Duke of Buckingham had assembled one of the largest and most significant collections of painting in early seventeenth century Europe His career as the personal and political favourite of two succeeding monarchs James I and Charles I coincides with the commission of a number of highly ambitious portraits from the hands of Peter Paul Rubens and Anthony van Dyck that displayed his body in spectacular manner As the first comprehensive study of Buckingham s patronage of the visual arts this book is concerned with the question of how the painted image of the courtier transferred strategies of social distinction that had originated in the masque to the language of painting Establishing a new grammar in the competing rhetorics of bodily self fashioning this recast notion of portraiture contributed to an epistemological change in perceptions of visual representation at the early modern English court in the course of which painting advanced to the central art form in the aesthetics of kingship **The New Hollstein German**

Engravings, Etchings and Woodcuts, 1400-1700 Friedrich Wilhelm Hollstein,2010 **Anna of Denmark** Jemma Field,2020-06-11 Approaching the Stuart courts through the lens of the queen consort Anna of Denmark this study is underpinned by three key themes translating cultures female agency and the role of kinship networks and genealogical identity for early modern royal women Illustrated with a fascinating array of objects and artworks the book follows a trajectory that begins with Anna s exterior spaces before moving to the interior furnishings of her palaces the material adornment of the royal body an examination of Anna s visual persona and a discussion of Anna s performance of extraordinary rituals that follow her life cycle Underpinned by a wealth of new archival research the book provides a richer understanding of the breadth of Anna s interests and the meanings generated by her actions associations and possessions
