 Book on Spices & Condiments (with Cultivation, Processing & Uses) 2nd Revised Edition** NIIR Board of Consultants  
 & Engineers,2006-04-01 The term spices and condiments applies to such natural plant or vegetable products and mixtures  
 thereof used in whole or ground form mainly for imparting flavor aroma and piquancy to foods and also for seasoning of  
 foods beverages like soups The great mystery and beauty of spices is their use blending and ability to change and enhance  
 the character of food Spices and condiments have a special significance in various ways in human life because of its specific  
 flavours taste and aroma Spices and condiments play an important role in the national economies of several spice producing  
 importing and exporting countries India is one of the major spice producing and exporting countries Most of the spices and  
 herbs have active principles in them and development of these through pharmacological and preclinical and clinical  
 screening would mean expansion of considerable opportunities for successful commercialization of the product Spices can be  
 used to create these health promoting products The active components in the spices phthalides polyacetylenes phenolic acids  
 flavanoids coumarines triterpenoids serols and monoterpenes are powerful tools for promoting physical and emotional  
 wellness India has been playing a major role in producing and exporting various perennial spices like cardamoms pepper  
 vanilla clove nutmeg and cinnamon over a wide range of suitable climatic situations To produce good quality spice products  
 attention is required not only during cultivation but also at the time of harvesting processing and storing Not as large as in  
 the days when next to gold spices were considered most worth the risk of life and money The trade is still extensive and the  
 oriental demand is as large as ever Some of the fundamentals of the book are definition of spices and condiments
