

Theorizing Citizenship

- **Citizenship** is not an eternal essence rather a cultural artifact mold by people through time and that is why the notion of citizenship and the meaning attached to it changes with the change in political thoughts, ideologies, policies and government.
- other States acknowledge government intervention in the market. Besides, all citizenship rights haven't got institutional recognition at the same period.
- Citizenship obligations vary too, ranging from States where military service is required (like Eritrea and North Korea)
- to those states (including Ethiopia) where every citizen, under normal circumstances, is not obliged to take military trainings or serve.
- As a result, various citizenship theories emerge out of such historical trajectories.
