From Theosophy to Christian Faith Ethel Rhoda McNeile, 1923 A comparison of the two religions **The Esoteric Basis of Christianity, Or Theosophy and Christian Doctrine** William Kingsland, 2018-03-23 Excerpt from *The Esoteric Basis of Christianity or Theosophy and Christian Doctrine* A Paper Read Before the Blavatsky Lodge of the Theosophical Society It is well known that the claim which has been made by the Church from its earliest traditions down to our present day on behalf of Christian doctrine has been that of a special divine revelation by a personal God Beginning with the first chapter of Genesis and ending with the last verse of Revelation we are asked to believe that the collection of ancient writings known as the Bible has been specially prepared and inspired by this personal God as a record of his dealings with and his will towards the creatures he originally created This I believe may be accepted as the fundamental basis of Christian doctrine the centre round which all the teachings of the Church whether Protestant or Catholic has revolved and from which they cannot get away without breaking up and destroying all that has ever been known historically as Christianity I say specifically that this is the claim made by the Church because it is a fact commonly overlooked and one indeed of which the majority of professing Christians are ignorant that what is known as Christianity in its doctrinal form in its traditions and in the selection and compilation Of the subject matter of the Bible is purely ecclesiastical The Bible in its present form the creeds and the rites and ceremonies which go to make up the sum total Of what is known historically as Christianity were compiled by the early Church authorities from miscellaneous sources This however is a matter of literary and historical data into which I cannot enter now but I wish it to be understood that in speaking of Christianity and Christian doctrine I am dealing at present with its ecclesiastical and historical forms and not with the personality or teachings of its supposed founder We have then this fundamental idea of Christianity as a revelation of the personal relationship between a creative God and the creatures he created and upon this basis is built up the doctrinal superstructure with which we are all familiar in its many variations and modifications About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Theosophy and Christian Thought* William Spence Urquhart, 1922 Theosophy Or Christianity, Which? Theosophy René Guénon,2001 Since the late nineteenth century the Theosophical Society has been a central force in the movement now known as the New Age Just as the Communist Party was considered old hat by peace activists in the 60s so the Theosophical Society was looked upon by many in the spiritual revolution of those years as cranky uninteresting and pass But the Society like the Party was always there and despite its relatively few members always better organized than anybody else Since then the Society s influence has certainly not waned It plays an important role in today s global interfaith movement and since the flowering of the New Age in the 70s has

established increasingly intimate ties with the global elites And its various spinoffs such as Elizabeth Clare Prophet s Summit Lighthouse and Benjamin Creme s continuing attempt to lead a World Teacher Maitreya onto the global stage just as the Society tried to do in the last century with Krishnamurti continue to send waves through the sea of alternative spiritualities Gu non shows how our popular ideas of karma and reincarnation actually owe more to Theosophy than to Hinduism or Buddhism provides a clear picture of the charlatanry that was sometimes a part of the Society s modus operandi and gives the early history of the Society s bid for political power particularly its role as an agent of British imperialism in India It is fitting that this work should finally appear in English just at this moment when the influence of pseudo esoteric spiritualities on global politics is probably greater than ever before in Western history
